

# METER PITS

1

## Injection Molded Meter Pits

- AccuRound injection molded meter pits are lightweight and strong
- Can be used as a meter pit or large valve box
- Ribbed interior for high strength and stiffness
- 20,000 lb proof load
- Resists heat, cold, and UV
- Rigid base makes for easy installation and resists settling
- 100% virgin material – no recycled content
- Two pipe entry areas (3" x 4")
- Extensions mount easily and securely to 24" diameter meter pits for total heights up to 48"
- White exterior and interior
