Vitreous China Product Care

Rinse thoroughly and use a soft cloth to wipe the product dry after each use.

Regular Maintenance:

Remove stains using a cleaning product that contains mild abrasives; rinse and towel dry. Strong abrasive cleaners will scratch and dull the surface. Use toilet bowl cleaners on the inside of the bowl only. Do not use in-tank toilet cleaners as they can damage the flush valve or other working parts. Wipe any splashes of cleaner solutions from plastic or plated surfaces immediately.
