ALUMINUM AND STEEL VACUUM TUBING WITH ENDS

At Travis Pattern and Foundry, we stock most sizes of Steel and Aluminum tubing in 20 foot sections which we can cut to any length your company requires. We have the ability to weld the couplings on Steel or Aluminum tubing as well as press the couplings onto Aluminum tubing. Our in house hot dip Galvanizing tank provides complete protection if required, and we also carry a full line of Aluminum couplings which will interchange with our Steel coupling line to provide the most versatile product line in the industry.

SPECIAL ITEMS AND FABRICATION

Our in house welding and fabrication shop has the ability to respond to your job requirements in a timely fashion. We have the latest tools available and a wealth of experience to fabricate almost anything. If your company has a need for special items fabricated from Steel or Aluminum or cast of Aluminum in quantities, please call or fax Travis Pattern and Foundry, and we will do our best to earn your business.
