P-118 Single Handle Hot & Cold

Oil-Rubbed Bronze

Satin-Nickel Plated

- Residential
- Anti-Siphon
- Hot & Cold Mixing

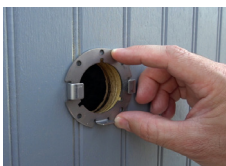

Application

PRIER P-118 provides a year round source of tempered water to areas of structures that are subject to freezing temperatures. The hydrant valve is connected to the supply piping in the heated portion of the structure, reducing the possibility of freezing. The temperature is controlled by the dial inset on the handle, while the handle itself controls the flow of water.

This valve is ideal for car washing, pet washing, cleaning and any other need for tempered water outside of the home.

Features

- Anti-siphon vacuum breaker with backflow check valve
- Internal checks to prevent thermal migration
- Solid brass body, valve stem cap, seat and stem ends
- Satin nickel plated or oil-rubbed bronze body maintains attractive finish
- Stainless steel screws
- Stainless steel mounting bracket with screws
- O-ring seals for easy turning
- Ergonomic, rubber grip handle
- Positive shut-off of hot water during cold flow
- ASSE 1019 / UPC
- Patent pending
- Mounting bracket and screws included

Mounting bracket remains hidden after installation

Ordering

P-118L10 - ORB

Inlet

L- 1/2" Copper
X- 1/2" Crimp PEX
