does it clear!

Styrene Acrylic Water-based Sealant

Acrylic Latex Adhesive Caulk is a water-based caulk ideal for use wherever an invisible seal is desired. It provides the durability, flexibility and adhesion properties of a silicone or solvent-based clear without the odor or messy clean-up. It can be used for a wide variety of interior and exterior applications. It provides a weatherproof seal by preventing air and moisture from passing through cracks and joints.

Does it Clear!™ won't crack or discolor with age and may be scrubbed with most household cleansers. It provides maximum protection from moisture damage and mildew growth when cured. And it cleans up easily with soap and water. Plus it comes with a lifetime guarantee.

IDEAL FOR CAULKING AND SEALING AROUND:

- Tub / shower surrounds
- Vanities, bath fixtures, tiles
- Window & Door perimeters
- Siding & Trim
- Vents, ducts, pipes
- Sinks, countertops, backsplashes
- Toilets
- Boat and marine upkeep (only above waterline)
- Baseboards & Molding
- Thresholds

ADHERES TO:

- Ceramic Tile
- Glass
- Marble
- Vinyl
- Laminate
- Fiberglass
- Wood
- Wallboard
- Porcelain
- Metal
- Plastic
- Concrete & Masonry

Phenoseal®

Vinyl Adhesive Caulk

Vinyl Adhesive Caulk is a versatile all-purpose caulk that is perfect for almost any job. It truly does it all - BONDS, CAULKS & SEALS. You can use it as a caulk to seal gaps or as an adhesive to bond materials. It is a caulk and glue in one!

Phenoseal Vinyl Adhesive Caulk is easy to apply. It has a mild, pleasant odor and cleans up easily with soap and water. Cured caulk is mildew resistant. It is fast-drying and can be painted with latex and oil-based paint.

Phenoseal's unique Vinyl Caulk formulation means increased durability and strength. It provides a waterproof seal and can be used indoors or out for wide variety of projects. And it comes with a lifetime guarantee.

RED END

- Marked on both sides, both edges.
- Graduated to 1/16ths both edges; 16" stud centers marked in red.

ITEM NO.	MFG #	SIZE	PACK
LU066	066	5/8" X 6'	6

RED END PLUMBER'S

- Used for working with 45° elbows to eliminate figuring.
- Graduated one side, in black, inches to 1/16ths upper edges.
- Other side in red, 45° scale inches to 1/16ths upper edge only.
- Turning rule from black to red gives the corresponding 45° elbow measurement.

EXAMPLE

Sketch at right shows 10" 45° offset; by turning rule at 10" graduation on standard inch side red graduation directly opposite indicates center-to-center fittings to be 14 1/8". Actual pipe length varies as allowances must be made for type of pipe and fitting used. All other size offsets are calculated in same manner. Where offset is longer than length of rule, add 45° scale measurement of extra distance to last scale on rule (101-13/16).

CARBIDE HOLE CUTTERS

If you're using a knock-out punch, you're wasting your time.

Do the job in seconds, not minutes- and save time with every accurate, burr-free hole. A built-in over-drill stopper means our Hole Cutter never crashes into work or damages the work piece. With a split-point pilot drill bit, you get fast penetration without walking - even in tough materials like stainless steel. No wrench required.
