

## Solvent Weld Sewer Fittings SDR 35

Injection Molded in Sizes 3" – 12"

Fabricated in Sizes 10" – 36"

### Applications

Plastic Trends has the broadest product offering of Solvent Weld Sewer fittings in the industry. They conform to all municipal, federal, and military requirements. They are tested for joint tightness, internal stress and dimensional stability. The "P" Series is engineered for the harsh environment of construction, shipping, handling and installation.

Listed below are some of the uses of Solvent Weld Sewer fittings:

- Onsite Disposal
  - Closed loop septic fields
  - Open system septic fields
  - Engineered systems
- Laterals to Municipal Sewers (sanitary & storm)
- Surface Drainage
  - Foundation Drains
  - Radon Gas Venting
  - Yard Drainage
    - Downspouts
    - Pool Drainage
    - Area Drainage
    - Landscape Drainage

### Certifications

Plastic Trends Solvent Weld Sewer fittings are third party tested and listed by NSF, UPC, and CSA to meet specifications defined in ASTM D 3034 and CSA B182.2.

### Product Spotlights

#### Square X™ Countersunk Threaded Plug

(P1144, P1146, P1148, P11410, P11412)

SquareX™ is a major advance in countersunk threaded plug design.

It features a unique molded-in shape and installs in seconds. Two standard screwdrivers provide plenty of leverage to tighten or loosen the plug. PVC threaded plugs are notorious for being difficult to remove and are often destroyed in the process. SquareX™ significantly improves the removal process and reduces the potential for breakage. Refer to page P10 for pricing.

#### FlushMount™ Downspout Adapters

FlushMount™ lets you install pipe right up against the wall. They connect a downspout to either a smooth wall sewer pipe or corrugated drain pipe. Available in sizes 3, 4 and 6. Refer to page P9 for available configurations and pricing.

#### IntelliCap™ and IntelliDisc™

The smarter solution for locating underground utilities. Now, with the Plastic Trends' IntelliCap™ and IntelliDisc™ you no longer need to guess and dig for the location of the access plug. These two new additions to the Plastic Trends' line allow you to easily locate underground risers or municipal services through backfill, snow or overgrown vegetation up to five feet deep. Refer to page P10 for available configurations and pricing.

### Short Specs

3" through 12" injection molded solvent weld SDR 35 sewer fittings shall be manufactured in accordance with ASTM D 3034 and CSA B182.2. They shall be molded from virgin PVC compound having a minimum cell classification of 12454 or 13343 in accordance with, and certified by the National Sanitation Foundation (NSF), to meet ASTM D 1784. Injection molded solvent weld SDR 35 sewer fittings shall be certified by the National Sanitation Foundation (NSF) to meet ASTM D 3034, and, in applicable configurations, by the International Association of Plumbing and Municipal Officials (IAPMO) to meet ASTM D 3034 and by the Canadian Standards Association (CSA) to meet CSA B182.2.

ATTENTION: Plastic Trends fittings are not to be used with compressed air or gases. Plastic Trends does not recommend that piping systems that include its products be tested with compressed air or gases.
