We recommend consulting a professional if you are unfamiliar with installing kitchen fixtures and plumbing. Signature Hardware accepts no liability for any damage to the floor, walls, plumbing or for personal injury during installation.

INSTALLATION

1. Attach the mounting nuts to the faucet body and tighten.
2. Put the escutcheon on the faucet body.
3. Place the rubber washer over the mounting hole in the counter top and pass the faucet body and supplies through the hole.
4. From beneath the sink thread the locking gasket, and locking nut onto the faucet body.
5. Connect the valve adapters to the water supply valves. Attach the braided water supplies to the check valve adapters.
6. When your faucet installation is complete, turn on the water supply. Check to make sure that all connections are tight (no water should be leaking) and that the hot and cold supplies are working correctly. Turn the water on and allow the water to flow through the spout for approximately 60 seconds.
