Water Filter

Non-Regenerating, Whole-Home Catalytic Carbon Filter, Reduces Chlorine, Chloramines and Bad Taste & Odors

Once water arrives safely at your home there is no further need for disinfectants. In fact, they are undesirable. Disinfectants can create unpleasant tastes and odors, dry out skin, damage plumbing, and generate potentially harmful by-products. The NRVTOC and NRVTOCK whole-home carbon filters reduce chlorine, chloramines and bad taste and odors.

KEY FEATURES

Affordable: Economical whole-house carbon filtration solution for reducing chlorine, chloramines and other bad tastes and odors. TOCK models reduce chlorine plus hydrogen sulfide (H₂S) caused by sulphate reducing bacteria common in warmer climates.

Certified Chlorine Reduction: Certified by IAPMO R&T to NSF/ANSI 42 for Chlorine Reduction (based on the NRVTOC-150 model).

Catalytic Carbon: AQUAFINE[®] is a catalytic, high activity granular activated carbon manufactured by steam activation of select coconut shell charcoal. Its large micropore volume makes it particularly well-suited for the removal of chlorinated by-products such as chloroform and other trihalomethanes (THMs). An important feature of this material is its superior mechanical hardness and the extensive dedusting during its manufacture ensures an exceptionally clean activated carbon product.

VALVE FEATURES

Factory Installed
One-Piece Bypass

**Non-Regenerating
Valve** Economical
non-backwashing
distribution head
with convenient
quick connect
fittings.

**3/4" 90-Degree
Elbows** Included
for each installation.
Optional 3/4"
straight NPT fittings
also available.

Technical Specifications

PROFESSIONALLY ENGINEERED FOR PERFORMANCE

SPECIFICATIONS	NRV TOC-100	NRV TOC-150	NRV TOC-200	NRV TOC-250

Media Type	TOC MODELS: AQUAFINE® CATALYTIC CARBON TOCK MODELS: AQUAFINE® CATALYTIC CARBON WITH KDF DISTRIBUTOR			
Media Loaded	Yes	Yes	Yes	Yes
KDF Protector	TOCK Models Only			
Tank Jacket	No	No	No	No
Shipping Weight	53 lbs	72 lbs	94 lbs	117 lbs
Plumbing Connections	INCLUDES 3/4" 90° NPT ELBOWS. BYPASS INCLUDED.			
Electrical Requirements	NONE			
Water Temperature Limits	MIN 40° - MAX 110° F (4° - 43° C)			
Water Pressure Limits	MIN 30 - MAX 125 PSI (207 - 862 KPA)			

The lifespan of the carbon media bed in these units will be shorter compared to a backwashing carbon filter.

The actual media bed life will vary depending on water consumption, chlorine/chloramines concentration and flow rate.

Exceeding the peak flow rate listed above will drastically reduce the life expectancy of the carbon media.

DIMENSIONS

NRVTOC & NRVTOCK Filters	100	150	200	250
