

## **General Product Specification**

| Item No. | GPS348-10 |
|----------|-----------|
|----------|-----------|

| Date | 6/12/2016 | No. Pages | 1 |
|------|-----------|-----------|---|
|------|-----------|-----------|---|

## **Product Description:**

| Style            | Socks   |
|------------------|---|
| Item Size (each) | 3" x 4'   |
| Color            | Gray  |
| Composition      | 100% Polypropylene  |
| Structure        | Spunbond outer sleeve filled with meltblown polypropylene chopped |
|                  | material  |
| Technology       | Meltblown   |
| Absorbency       | Universal (Hydrophilic)   |
| Bonding          | N/A   |

| Intended Application | Universal (Hydrophilic) absorbent |
|----------------------|-----------------------------------|
|----------------------|-----------------------------------|

| <b>Absorbency Capacity</b> | 8.6 gallons per bale |
|----------------------------|----------------------|
| J = 1.1                    | 1 0 1                |

## Packaging Description:

| Packaging Configuration | case          | Pa         |
|-------------------------|---------------|------------|
| Items Per Package       | 10 Socks/case |            |
| Container Type          | box           | ' <u>-</u> |

| Package Weight | 10.0 lbs |
|----------------|----------|
|                |          |

## Physical Properties:

| Parameter              | MBT Test Method | Units | Nominal | (+/-) Tolerance |
|------------------------|-----------------|-------|---------|-----------------|
| Basis Weight           | MBTTM001        | LBS   | 10.0    | 2               |
| Absorbency** (med Oil) | MBTTM012        | GAL   | 8.6     | 4               |
| 3" Tensile Strength    | MBTTM02         | LBS   | N/A     | N/A             |
| Color                  | N/A             |       |         |                 |

The above properties are "nominal" values used for process control when the product is produced and/or inspected. Performance "nominals" may very depending upon the specific application, and/or environment being applied, stored, or shipped.

\*\* The "Absorbency" spec and "MBTTM012" test method is based on the protocol of ASTM F726, using SAE20 non-detergent as the Oil Type, medium viscosity.

| Attributes    | Product will be free of foreign material contamination, rips, holes and tears. |
|---------------|--|
| Labeling      |  |
| Certification | Make no changes in basic process or composition without notifying customer.    |
