

RIDGID®

KJ-1350 Water Jetter

Jets 1 1/4" to 4" (32mm-102 mm) Drain Lines

The RIDGID® KJ-1350 delivers professional-grade quality and dependable performance in a compact, electric-powered design. This jetter propels a highly flexible hose through 1¼" to 4" lines—breaking up grease, sludge, and soap buildup. As the hose is pulled back, it power-scubs the pipe walls, flushing debris away and restoring full, free-flowing capacity.

- **Powerful:** Clears stubborn blockages in ¾" to 4" lines with 1350 psi and 1.4 GPM, powered by a 1.5 HP motor
- **Easy to Use:** Thrust from water pressure propels the hose through the line. Activate pulse mode for maneuvering around bends and traps; KJ-1350-2 offers dual-level pulse for added control
- **Portable and Compact:** Use standalone or with the optional H-10 cart featuring a retractable handle and swivel hose reel. Detaches quickly for remote access and tight spaces
- **High Quality:** Built with a corrosion-resistant brass head duplex pump and fewer fittings to reduce leaks and maintenance. Pressure control valve allows quick adjustments
- **Easy Set-up:** Just connect to a water source with a standard garden hose—no extra tools or special power setup required
- **Versatile:** Optional power washer package cleans cables, tools, and heavily soiled equipment—extending utility beyond drain cleaning

Jetter Nozzles

Propulsion Nozzles

General-purpose nozzles features three reverse thrusters for maximum propulsion to jet long distances.

Penetrating Nozzles

Three reverse thrusters provide propulsion while addition forward-pointing thrust blasts through stubborn blockages.

Drop Head Nozzle

Allows Jetter hose to navigate difficult bends and traps. Three reverse thrusters provide propulsion.

Spinning Nozzle

Spinning action cleans the entire interior of pipe surface. Three reverse jets provide propulsion.

Jet Vac

For use with all RIDGID water jetters:

The Jet Vac attaches to any portable water jetter to quickly remove (vacuum) liquid and debris from flooded basements, sumps, swimming pools, construction sites, car wash pits, etc. This cost and time saving product will move up to 60 gallons of liquid per minute.
