G2PS19B120DLX Braided One-Piece Toilet Supply Kit – 1/4 Turn Angle Stop Push Connect x Compression

Use: For use in potable water distribution systems in accessible locations only. Not intended for recirculating systems that produce continuous use temperatures above 115° F. For those applications, use our KT™ series supply kits.

Design Features:

- **Everything you need.** These kits combine our trusted supply stop, braided water connector, and escutcheon for an easy-to-install, one-piece connection.

Braided connector provides:

- **Corrosion resistance** to harsh chemicals found in most common household cleaning and plumbing repair products
- **More flexible than stainless steel**, the braided polymer-coated fibers bend freely without kinking or crimping
- **Rubber washers** provide a large pliable sealing surface and ensures a long lasting water tight connection

G2™ quarter turn stop provides:

- **Compatible with** PEX, copper, and CPVC.
- **Pre-inserted tube stiffener** is “installation ready” for a faster connection
- **Compact machined** one-piece body design
- **Fast**, reliable, secure
- **Smooth** 1/4 turn operation

Operating Specifications:
