

# **XB110R Rock Solid® Paint Hardener - Technical Specifications**

## **Product Overview**

Name: Rock Solid® Paint Hardener  
Part Number: XB110R  
Packaging: 2 cubic foot gusseted woven bag

## **Composition**

Primary Ingredients:  
- Sodium Polyacrylate (super absorbent polymer)  
- Alumina Silicate Perlite (lightweight mineral)

## **Performance**

Solidifies: Up to 38 gallons of paint per bag  
Works With: Latex, acrylic, water-based paints; oil-based paints and some solvents  
Action Time: Thickens and solidifies in minutes

## **Safety & Compliance**

Non-toxic, eco-friendly  
UL ECOLOGO Certified  
Disposal: Hardened material can be discarded as solid waste (check local regulations)

## **Physical Properties**

Appearance: White granular powder  
Odor: Odorless  
pH: Neutral  
Moisture Absorption: High capacity

## **Handling & Storage**

Store in a dry area, away from moisture  
Avoid inhalation of dust; use basic PPE (gloves, mask)
