ABOUT SAS SAFETY CORP.

At SAS Safety Corp., we dedicate ourselves to protect our most valuable resource: people.

Established in 1983 in Long Beach, CA, we have grown our product categories throughout the years to provide a complete line of head-to-toe personal protective equipment for multi-markets and DIY'ers; Hand / Body Protection, Eye Protection, Respiratory Protection, Hi-Viz Traffic Safety, First Aid and much more.

As an ISO 9001 Certified company, delivering high performance quality products and commitment to your safety is our top priority.

KNIT WRIST

Knit Wrist Leather Palm Gloves

- Clute cut
- Full leather palm
- Blue / red striped cotton back
- Knit wrist
- Straight thumb
- Ideal for woodworking, masonry, warehousing and agriculture

Bulk Item No.	Retail Item No.	Size
670-6519	6519	One-size-fits-most

STRING KNIT

String Knit Gloves

- 7-gauge string knit
- Comfortable breathability
- Lightweight cotton / poly knit
- General-purpose work gloves for warehousing, parts handling and general maintenance.

Retail Item No. 6566 **Size** One-size-fits-most

COTTON CANVAS

Cotton Canvas Gloves

- 8 oz. cotton canvas
- General purpose glove
- Straight thumb
- Breathable, soft cotton material
- Ideal for general maintenance, shipping & receiving, and outdoor work.

Retail Item No. 6565 **Size** One-size-fits-most

BROWN JERSEY

Brown Jersey Gloves

- Strong and comfortable hand protection
- 8 oz. brown jersey with knit wrist
- Straight thumb
- Breathable cotton provides cool comfort in summer and warmth in cooler months
- Ideal for general purpose applications and protection against abrasions

Bulk Item No. 670-6563 **Retail Item No.** 6563 **Size** One-size-fits-most

Kevlar™ Heat Sleeve

- 14" length of 100% Kevlar™
- Improved comfort and protection against cuts and abrasions
- Heat resistant
- May be worn with gloves
- Washable and reversible
- Meets current ASTM F2992-15 Standard for Cut Level A3

Retail Item No. 6701 **Size** One-size-fits-most

Electric Service Gloves Class 0

- Made with Type 1 natural rubber
- Class 0 low voltage protection up to 1,000 Volts AC/1,500 Volts DC
- 12" length with straight cuff and smooth finish
- Meets or exceeds current ASTM D120-09 specifications, OSHA 29CFR 1910.269 regulations

Retail Item No.	Size
6417	Medium (8)
6418	Large (9)
6419	X-Large (10)
6420	2X-Large (11)

Leather Protector Gloves

- Goatskin leather provides optimal glove durability
- Extends the life of rubber electric service gloves
- Meets ASTM F696-06 standards

* **WARNING: Do not use leather protector gloves alone for protection against electric shock.**

Chemical Resistance

This Chemical Resistance Chart is intended to provide general information about the reactions chemicals with the glove materials listed. Each situation in which a pair of gloves is used can have some variability in the thickness of the glove, the chemical concentration, the temperature, and the length of time exposure to chemicals, affecting performance.

Disclaimer: The information provided in this chart is for reference purposes only and is compiled from publicly available published data. The gloves have not been individually tested against the chemicals. Resistant levels may be affected by differences in handling, storage or usage.

Cut Resistance

Cut resistant gloves are crafted to protect hands from direct contact with sharp-edged objects such as glass, metal, ceramics, box cutters and other materials. Cut resistance is determined by a CPPT machine/device in accordance with ASTM F2992-15 and is often used to compare the safety of various products. Performance characteristics can also be affected by a material's weight and coatings applied to the outside surface. Lighter weight styles are typically more flexible, resulting in less hand fatigue, while their heavier counterparts will generally provide the wearer with more cut and abrasion protection. Coated gloves enhance grip, especially on slippery surfaces.

Cut Thru Gram Weight
(8mm of Cut Distance)

≥ 500

Suggested Applications

Light/medium cut hazards: construction, automotive assembly, packaging, light masonry applications

≥ 1000

Moderate cut hazards: material handling, light metal stamping, light-duty glass handling applications, warehouse, automotive assembly

≥ 1500

Moderate/High cut hazards: metal stamping, sheet metal handling, glass handling, HVAC applications, food service, warehouse, electrical

≥ 5500

High/Heavy cut hazards: heavy sheet stamping, plate glass handling, pulp and paper applications, food prep/meat processing, automotive assembly, electrical

≥ 3000

Heavy cut hazards: metal fabrication/stamping, metal recycling, glass manufacturing, pulp and paper, window manufacturing, automotive assembly, HVAC, aerospace industry, food processing

BANDIT[®] OV/N95

Disposable, reliable respiratory protection. Pre-assembled to eliminate cartridge and filter hassles. Constructed with a soft, comfortable, lightweight Thermoplastic Rubber (TPR) face piece for flexibility and a secured fit. Ideal for multi-purpose workplace applications.

Disposable Dual Cartridge Respirator

- Pre-assembled respirator eliminates cartridge and filter attachment hassles
- Face piece is constructed with comfortable, lightweight TPR material for flexibility, comfort and secure fit
- Cradle suspension and easy to adjust head strap
- Low profile cartridge placement is designed for a better field of vision and balance for the wearer
- Packaged in resealable bag to keep respirator clean during non-usage
- **NIOSH APPROVED:** TC-84A-7858

HIGH VISIBILITY

Be INVUE® and improve your visibility on the job, highways or recreational areas. The INVUE® product category features a vast collection of High-Visibility safety clothing of different ANSI Class levels and fluorescent styles. From safety vests, flame resistant wear, t-shirts and hoodies to jackets, parkas, hats and rain gear.

Class	Description
Class 1	For traffic speeds < 25 MPH
Class 2	For traffic speeds < 50 MPH
Class 3	For traffic speeds > 50 MPH
Class E	Combining class E pants with a class 2 vest, coat or jacket, results in a Class 3 outfit.
Type	Description
Type O	The "O" stands for "Off-road"
Type R	The "R" stands for "Roadway"
Type P	The "P" stands for "Public Safety"

TRAFFIC SAFETY

Road safety on highways, construction zones, parking lots and job sites require safety precautions to prevent injury and even save lives. Traffic cones help alert drivers where it is safe to drive and can also be used as a guide for pedestrians on public streets. Be seen and INVUE with our variety of traffic cones and barrier fencing.

Safety Cones

- 100% PVC injection molded cone
- Available in various bright fluorescent colors with UV inhibitor
- Cleated base allows firm grip to the road
- Superior flexibility in any kind of adverse weather condition
- Reflective bars on orange cones provide wide angle reflectivity
- Collapsible orange cone condenses down flat for easy transport

EYEWASH STATION

Avoid violating OSHA regulations and citations at your workplace, where hazardous materials are present, by installing a Portable Eyewash Station. A smart and quick solution that is necessary when handling chemicals. Having the right safety equipment can prevent long term injury, loss of time and inspection fees.

9 Gallon Portable Emergency Eyewash Station

- Compliance - ANSI Z358.1-2014
- One-hand operation
- Gravity fed, no plumbing required
- Holds 9.65 gallons of water
- Provides a minimum 15-minutes flushing period
- Lockable cap
- Portable unit measures 20.15" x 16.5" x 9.5"
- Mounting bracket, inspection tag, tamper resistant tie, and preservative included
- Change water every 3 - 6 months

Item No.	Description
5134-00	Eyewash station
5137	Eyewash inspection tag
5134-02	Eyewash Station Replacement Cap
5134-12	Mounting bracket

SPILL CONTROL

Slips are caused by wet surfaces, spills, or weather hazards and can cause severe injury or a fatality. Prevent slippery floors and surfaces by taking care of the spills immediately with the appropriate spill control pads, socks and equipment. Spill Control Kits are convenient and compact to take with you to a jobsite.

Absorbent Oil Pads

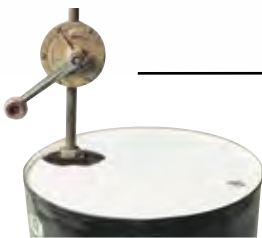

- Absorbs up to 25 times its own weight in petroleum product
- Easily installed and removed with no shoveling or sweeping
- Unaffected by temperature changes
- Will not rot or mildew
- Use for cleanup and removal of oil around mechanical equipment
- Use for minor spills or for final cleanup of large spills
- Absorbs oil, coolant, hydraulic fluid, diesel fuels, gasoline, isopropanol, kerosene, nitric acid and MEK
- Water repellent (7710 and 7720 only)
- Great for walkways and open areas to catch leaks, drips and overspray

Item No.	Description
7710	White absorbent* pads 16" x 20" (100 pads)
7712	Gray absorbent pads 16" x 20" (100 pads)
7720	White absorbent* roll 16" x 168" (20" perforated pads)

* Non-aqueous, does not absorb water

Drum Top Pad

- Pad helps eliminate messy drips and overflow when mixing or pumping liquids in drums
- Drum top cover is easy to install
- Pre-cut holes to help fit evenly over the top of a 55-gallon drum
- Highly absorbent polypropylene cover will absorb oil and chemicals

Item No.	Description
7730	21.5' x 21.5" (25 pads, white)

Spill Control Boom Socks

- Universal sorbent boom socks absorb oil and chemical spills
- Place anywhere you need to stop spills
- Flexible to mold around corners

Item No.	Description
7740	3" x 48" (12 socks, white)

Emergency Response Spill Kit

Includes	Item No.	Description
• Absorbs oil, paint or chemical spills on land	7710	Absorbent pads (15 each)
• Absorbs over 4 gallons of waste	7740	Absorbent boom socks (3 each)
• Fits behind truck bench seats	5109	Chemical splash goggles (1 each)
• Box dimensions: 27.25" x 20.13" x 3.75"	6533	Nitrile chemical gloves (1 pair)
	7760	All-purpose waste disposal bags (2 each)

Item No.
7750

SAFETY COMPLIANCE

The SDS Compliance Center meets the updated Hazard Communication Standard (HCS) 2015. It provides a convenient storage for quick reference of safety data sheets and other safety documents where hazardous materials are present. Place on walls in warehouses, factories, storage rooms or where chemicals are used and or stored.

SDS Compliance Center

- High-visibility
- Provides convenient storage
- Instant point of reference when working with potentially dangerous substances
- Mount on walls in warehouses, factories, storage rooms or anywhere hazardous chemicals are used or stored
- Meets HCS 2015 Standard

Item No.	Description
6000-75	SDS compliance center (includes 1.5" Binder)
6000-70	1.5" Binder
6000-76	3" Binder
6000-71	Wire Rack

Hazard Communication

Hazard Communication continues to be one of the top ten OSHA violations in workplaces. With over 4,000 citations in 2019, lack of Hazard Communication is increasing annually, which puts employees at risk. Complying with Hazard Communication means addressing the chemical hazards, both produced in the workplace and those brought into the workplace.

- Kit includes the necessary forms and procedures to meet OSHA requirements
- Simple-to-understand, fill-in-the-blank type program makes compliance easy
- Meets HCS 2015 Standard

Item No.
6000-50

Safety Combo Kit
