

## NPN-Universal & NPN-Exterior Premium Tankless Water Heaters

Navien innovation now in non-condensing tankless

## NAVIEN PREMIUM NON-CONDENSING TANKLESS WATER HEATERS

#### No one has put more non-condensing ingenuity into tankless than Navien

The new Navien NPN series is the first and only non-condensing tankless water heater series that offers a durable stainless-steel heat exchanger and a patented stainless steel burner design, all with Navien's dedication to advanced engineering, elegant design and exceptional product quality and support.

- Patented NaviTech™ stainless steel heat exchanger and stainless steel burner with precision control flame technology for eco-friendly low NO<sub>X</sub> emissions comparable to condensing burners
- 0.81 Uniform Energy Factor (UEF) for all models
- Choice of universal indoor/outdoor or outdoor only operation
- Strong residential and commercial warranties
- NaviVent<sup>™</sup> concentric 3" x 5" venting

and durability

 Units available in either Natural Gas (NG) or Liquid Propane (LP) gas

RESIDENTIAL & COMMERCIAL

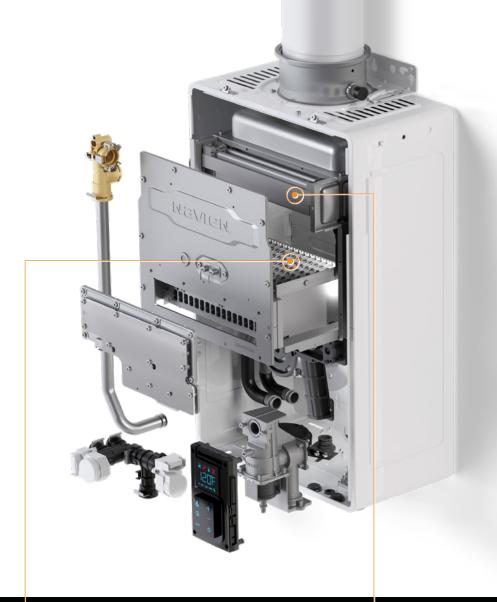

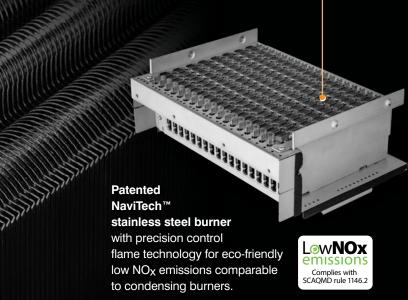

**NPN-U**niversal Indoor/outdoor

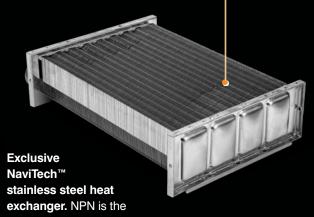

# Navien NPN stainless steel heat exchangers and burners give you unmatched performance

**NPN-E**xterior Outdoor only

first non-condensing unit with a stainless steel heat exchanger. The corrosion resistant heat exchanger is another innovation created from Navien's industry leading NPE condensing tankless stainless steel technology.

## COMPARE OUR ADVANTAGES TO OTHER NON-CONDENSING TANKLESS

**Flexible Navien NPN-U**niversal indoor or outdoor unit and **NPN-E**xterior dedicated outdoor unit. NPN-E outdoor models also feature remote control and built-in button controls for easy service.

**NPN-U**niversal indoor configuration.

**NPN-U**niversal with vent cap for outdoor use.

**NPN-E**xterior outdoor use only.

NPN series
 integrated control
 panel allows you
 to adjust water
 temperature,
 operation status and
 troubleshooting.

### Circuitry with built-in recirculation control and software.

No need to add separate controller saving installation time and money.

#### Built-in Air Pressure

**Sensor (APS)** monitors and maintains air/gas pressure ratio during operation. Also ensures consistent DHW output during partial air blockage.

#### Built-in Water Adjustment Valve (WAV) and Mixing Valve

controls flow to maintain setpoint and stabilizes temperature during flow changes.

#### NaviLink™ Wi-Fi remote control.

This optional accessory enables you to control temperatures remotely, access usage data and receive diagnostic notifications from your smart phone or tablet.

#### Space saving and lighter weight design.

These sleek wall-hung units use much less space and are substantially lighter than traditional tank water heaters.

#### Low noise levels.

Installations in or near media rooms, recreation rooms or any living areas of the house are possible with the quiet running NPN water heaters.

#### Cascading capability.

For increased domestic hot water flow demand, the NPN can be cascaded with another NPN unit.

#### Pin-to-pin design.

Matches configuration of other tankless models for easy retrofit installation.

#### Low NO<sub>X</sub>.

The NPN series non-condensing eco-friendly stainless steel burner emits very low NO<sub>X</sub> levels,

like our industry leading NPE series condensing tankless water heaters.

## 90%+ OF NPN IS DESIGNED AND BUILT BY NAVIEN

Navien is the only non-condensing tankless water heater manufacturer to design and produce stainless steel heat exchangers and high efficiency NaviTech™ burners. Instead of assembling parts from various suppliers, we engineer and produce 90% of the components in our NPN series units and use advanced robotics to assure manufacturing integrity.

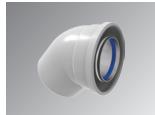

## 3" x 5" CONCENTRIC VENTING ACCESSORIES

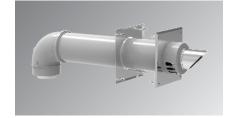

Sidewall termination kit 11.5" (292mm) GXXX001891

#### Warranty

Appli	cation	Labor	Parts	Heat Exchanger
	Standard	1 year	5 years	15 years
Residential	Uncontrolled Recirculation <sup>2</sup>	1 year	3 years	5 years
Commercial	Standard	1 year	5 years	5 years
or Combi <sup>1</sup>	Uncontrolled Recirculation <sup>2</sup>	1 year	3 years	3 years

- <sup>1</sup>Combi refers to a combination potable water and space heating application. Water heaters cannot be used in space heating only applications.
- <sup>2</sup>Uncontrolled-Recirculation: External pumps configured to circulate continuously through the water heater are subject to the uncontrolled recirculation warranty terms. An aquastat is the minimum pump control requirement for DHW or storage tank recirculation in order to maintain the full controlled recirculation warranty.

For complete details please refer to the full warranty at NavienInc.com.
