Protection: For People and Processes

Kimberly-Clark Professional understands the challenges you face in protecting your process from contamination and your people from harm. We also understand how you strive to maintain the highest laboratory and cleanroom standards while meeting your sustainability goals. We have solutions that can minimize contamination and risk while increasing productivity and reducing waste. Let us show you how.

Protection: When and Where It Counts

When it comes to protection, you can't cut corners. You need reliable, trusted solutions that will deliver the highest level of assurance — seamlessly.

Kimtech™ Brand solutions provide sterile and clean-processed apparel options that will close the gaps in contamination, effectively and efficiently, while delivering comfort to your employees. And that's not all. The Kimtech™ Brand offers innovative gowning technologies, sterile and non-sterile glove products and task-engineered wipers that deliver precision performance for all your lab and cleanroom needs.

Scientifically proven. Intuitively designed. Reliable.

For protection against known and unknown risks, put your trust in the **Kimtech™** Brand.

KIMTECH™

If your garments
are compromised,
your process could be too.

Are You
Dressed
For Success?™

Contamination Is a People Problem

To avoid cleanroom contamination, we have to look at its source: PEOPLE. They are the largest contributor.

What stands between you and the risk of contamination? Your choice of garment.

Selecting the right garment can reduce the contamination risk dramatically.

The Good News: We Make It Simple

Being **Dressed For Success™** means choosing a garment that can control contamination and gives you the assurance to do your best work.

Contamination is bad for business, especially for an industry where purity is paramount.

Before you get dressed, turn to the experts in sterile garments — **Kimtech™ Sterile Single-Use Apparel** for seamless protection when and where it counts.

There are big differences between Kimtech™ Sterile Single-Use Apparel and laundered garments:

› SINGLE-USE GARMENTS

Kimtech™ Sterile Single-Use Garments are engineered to reduce contamination risk, offering significantly higher bacterial filtration efficiency (BFE) ratings than laundered reusable apparel. And they're sterile every time — **guaranteed.**

Bacterial filtration efficiency (BFE)

Strong barrier for fine particles and liquids

Bacterial filtration efficiency (BFE)

Fabric degradation at the submicron level — enough to allow bacteria to penetrate

› For more information, visit www.kimtech.com/dress-for-success

¹ Kimberly-Clark Test Study

Here's What Success Looks Like

- ▶ Our garments close the gaps in contamination and offer cloth-like comfort through a 100% polypropylene breathable SMS (Spunbond Meltblown Spunbond) fabric.

CONTAMINATION CONTROL FEATURES:

Advanced Clean-Don™ Technology

Lowers contamination risk and makes sterile donning easier — minimizing the chances of workers touching the outside of garments or garments touching the floor

Each Garment Sealed in Multi-Layer Packaging

To guarantee sterility

Secure Fit to Reduce the Risk of Particles Escaping

And a gap guard for additional protection

Snap Technology on Arms and Legs

Built-in snaps automatically release as the garment is put on — lowering the risk of it touching the floor

Inside-Out Fold

Visible blue line along the inside of the garment signals the proper place to hold while gowning and helps workers avoid touching the outside of the garment

Built-in Thumb Loops

Keep garment sleeves from rolling back and exposing the arm or wrist

Plus:

 Recyclable via
The RightCycle™ Program

Divert these previously hard-to-recycle items from your waste stream

Contain submicron particles from head to toe with seamless protection and comfort for ISO 5 or higher cleanrooms.

GRADE A

Sterile filtration, filling & stoppering, lyophilization

- Kimtech™ A5 Cleanroom Apparel, clean processed with Clean-Don™ Technology (see pages 16-19)
- Kimtech™ M3-M5 Cleanroom Face Masks (see page 54)
- Kimtech™ G3 White Nitrile Gloves & Kimtech™ G3 Latex† Gloves (see pages 36-38)

GRADE B

Activities in areas directly surrounding Grade A zone

- Kimtech™ A6 Liquid Splash Protection Coverall with Hood (see page 20)
- Kimtech™ M3-M6 Cleanroom Face Masks (see page 56)
- Kimtech™ G3 White Nitrile Gloves & Kimtech™ G3 Latex† Gloves (see pages 36-38)

GRADE C

Drug compounding, compression, coating

- Kimtech™ A7 Certified Liquid Barrier Gown (see page 21)
- Kimtech™ M7 Veils (see page 56)
- Kimtech™ G3 NXT™ Nitrile Gloves & Kimtech™ G3 Blue Nitrile Gloves (see pages 36-38)

GRADE D

Material staging, labeling and packaging, laboratory

- Kimtech™ A8 Cleanroom Apparel (see pages 22-24)
- Kimtech™ G3 NXT™ Nitrile Gloves & Kimtech™ G3 Blue Nitrile Gloves (see pages 36-38)

† **CAUTION:** This product contains natural rubber latex which may cause allergic reactions.

By Kimberly-Clark Professional®

Giving Single-Use Apparel, Gloves,
and Safety Eyewear a New Life.

What Is **The RightCycle™** Program by Kimberly-Clark Professional?

Sustainability matters to you and to us. That's why we created The RightCycle™ Program, the first large-scale recycling program for non-hazardous lab, cleanroom and industrial waste. Since 2011, we've helped hundreds of customers divert more than 1,200 metric tons of waste. We can do the same for you by turning your used gloves and garments into flowerpots, patio furniture and other useful products.

At Kimberly-Clark Professional, we're always working to reduce the environmental impact of our products. Reducing our dependence on the world's natural resources, leaves more for the future — for our children, for the planet and for our businesses. We strive to help customers like you reach your zero waste-to-landfill goals. The RightCycle™ Program is part of this commitment and one very important way for us to work together, one ton of waste at a time.

"For me, the biggest appeal about The RightCycle™ Program is that it's the start of an EPR, an Extended Producer Responsibility, for a material that we don't often think about. Gloves are a high-volume, fast-moving commodity used by almost every industry. Once people start getting good at recycling primary commodities, such as paper and plastic, we're going to have to move to secondary commodities. Gloves bring you to that next level."

— Shantanu Pai
Assistant Sustainability Researcher,
Illinois Sustainable Technology
Center (ISTC)

**1,200 tons
& counting**
waste diverted
since 2011

Apparel items, eyewear, and nitrile gloves are worn in your facility.

Used products are collected and shipped to our recycling centers.

Used products are sorted and processed into plastic pellets.

Materials are molded into new plastic products and durable goods.

www.KCProfessional.com/RightCycle

Look for this symbol to see which products are eligible for recycling

APEX Makes It Happen

When you're transitioning to a new brand of products, you want the changeover to be seamless and worry-free. That's where APEX comes in. It's our promise to you to make the conversion to Kimtech™ Brand products as successful as possible.

APEX is a complimentary training program that effectively engages employees, ensuring protection of the scientific process while enhancing efficiency and performance. Expert consultants work with employees on everything from aseptic technique and best practices to standard operating procedures (SOP) review and physical gown and glove training.

APEX is an essential component of our solutions and another example of what makes Kimberly-Clark Professional so exceptional.

APEX

“APEX is invaluable.
It helps with ‘big change’
for customers.”

- Kimberly-Clark Professional distributor

Protective Apparel

Kimtech™ Brand apparel provides seamless protection when and where it matters most — closing the gaps in your protection. As a global leader in lab and cleanroom personal protective equipment (PPE), Kimberly-Clark Professional products work together to enhance comfort, compliance and productivity.

Clean Processed with Clean-Don™ Technology

▶ PRODUCT FEATURES

- **Highly visible blue line** along the inside of the garment signals the proper place to grasp while gowning, helping workers to avoid touching the outside of the garment
- **Cloth-like comfort** is delivered by the SMS (Spunbond Meltblown Spunbond) material
- **Built-in thumb loops** keep garment sleeves from rolling back and exposing arm or wrist
- **Innovative inside-out fold** pattern presents the inside of the garment as the package is opened, reducing the risk of touching and contaminating the outside of the coverall
- **Patented telescoped arms and legs with snap technology** feature built-in snaps that gather up legs and arms to lower the risk of touching the floor, then automatically release as garment is put on
- **Vacuum-packaged** for sterility integrity and odor control (sterile apparel)

KIMTECH™ APPAREL SMS FABRIC

Outer Layers – Cloth-like, yet tough and abrasion-resistant spunbond polypropylene

Middle Layers – Intricate web of microfibers that filter out many water-based liquids and dry particulates

TYPICAL USES

ISO 5-8

Cleanroom Environments

- Compounding
- Mixing
- Filling
- Cleaning

A5 Sterile Integrated Hoods

- Oval head design to accommodate different hairstyles and head shapes
- Optimized viewing to limit skin exposure around forehead and cheeks
- Integrated hood and mask to close gaps in protection

A5 Sterile Elasticized Hoods

- Stretch fit elastic hood and opening
- Tunneled overseams to prevent particle shedding
- Clean-Don™ Technology ties for easy donning and a more secure fit

A5 Sterile Boot Covers

- Side grasp ties for secure fit
- Vinyl edge to reduce slipping and liquid penetration
- 3 sizes available (S/M, L/XL, Universal)

A5 Sterile Sleeve Protectors

- Blue-line donning signal feature
- Thumb loops keep sleeves from rolling back and exposing arm or wrist

A6 Liquid Splash Protection Coverall with Hood

▶ PRODUCT FEATURES

- High-performance laminated film for the front panel, hood, arms and legs
- Lightweight, breathable material for the back panel to keep workers safe and cool
- Suitable for ISO 6, 7 and 8/Grade C & D cleanrooms
- Built-in thumb loops and elastic cuffs
- Innovative origami-inspired fold design to reduce gowning time
- Low lint, Category II, Helmke Drum Test

APPLICATIONS

- Non-Sterile Pharmaceutical Manufacturing
- Bio-Medical Research
- Pharmaceutical Compounding
- Biotechnology

A7 Liquid Barrier Gown

ISO 6,7,8

PRODUCT FEATURES

- Seamless front and closed back
- Enhanced liquid barrier protection — fabric tested per ASTM F1670, F1671 and F739-12 for permeation of chemotherapy drugs and hormones
- Easy don-and-doff design to reduce contamination risk and prevent chemicals from getting on clothing or skin
- Thumb loops to maintain glove and garment interface
- Low lint to minimize contamination
- Meets USP <800> guidelines by providing seamless protection against hazardous drugs

Description	Color	S/M	L/XL	2XL	Gowns/Bag	Bags/Case
Seamless front, closed back	Blue	47992	47993	47994	10	10

A7 Ankle High Shoe Covers

ISO
6,7,8

▶ PRODUCT FEATURES

- Enhanced chemical and biological protection (passes ASTM F1670 for penetration of blood and body fluids) to help protect people and processes from liquid splashes
- 30% more material is added to cover the ankle (vs. a standard shoe cover)
- Features two elastic bands above and below the ankle for enhanced coverage and fit
- Durable anti-skid soles for a better grip
- Thread color helps to identify size

Two elastic bands above and below the ankle for enhanced fit and coverage

30% more material added to cover the ankle vs. a standard shoe cover

Durable anti-skid soles for better grip

Key features have been highlighted for illustration purposes only.

† CAUTION: This product contains natural rubber latex which may cause allergic reactions.

Advantages of Kimtech™ Gloves

Acceptable Quality Level (AQL)

AQL 1.5

- Refers to the probability of having defective gloves within a lot
- The lower the AQL number, the lower the probability of defective gloves
- Kimtech™ Gloves exceed ASTM standards for freedom from pinholes and critical defects (*ASTM = AQL 2.5; Kimtech™ Gloves = AQL 1.5 or better*)
- A low AQL for pinholes is important — the lower the number of pinholes, the greater the level of barrier protection

The Importance of Trend & Technical Data^{†††}

- Demonstrate consistent product quality over time
- Trend data indicating particle counts and extractable levels are available for all Kimtech™ G3 Latex[†] and Nitrile Gloves

■ Monthly Particle Average (Particles larger than 0.5 microns)
■ Upper Limit Specification

Example based on historical Critical Nitrile Data

††† Tested according to the procedure as described in IEST-RP-CC005.3: Gloves and Finger Cots Used in Cleanrooms and Other Controlled Environments

† **CAUTION:** This product contains natural rubber latex which may cause allergic reactions.

Symbols Key

- Look for this symbol to see which products are eligible for recycling
- Acceptable Quality Level
- Sterile
- Double Bagged with Case Liner
- Recommended for ISO Class 3 or higher cleanroom
- Recommended for ISO Class 5 or higher cleanroom

Prizm™ Exam Gloves

Designed by Scientists, for Scientists

Kimtech™ Prizm™ Exam Gloves provide an unparalleled combination of precision, protection and comfort.

These protective gloves are crafted with a proprietary combination of polymers, neoprene and nitrile, proven to protect against a wide range of chemicals and biologics, making them your #1 choice for demanding scientific applications.

Mechanical breach indicator: dark violet on the outside and dark magenta inside

PRODUCT FEATURES

- FDA cleared examination gloves are tested against a wide range of chemotherapy drugs & fentanyl
- Meets FDA and Canada food contact requirements (per 21 CFR 177.2600 & Canada Food and Drugs Act and Regulations)
- Nitrile accelerator-free donning layer, reducing risk of allergic reactions

OVER
30%
of people who have experienced a hand injury were wearing the wrong kind of glove¹

Ultra fingertip grip helps reduce drops and breakage accidents, even when wet

Certified ergonomic comfort and best-in-class dexterity

Not made with silicone or rubber latex

Powder-free, ambidextrous

Recyclable through The RightCycle™ Program

9.5" and 12" lengths, AQL 0.65

Beaded cuff prevents roll-down

Masks

Our solutions help keep contaminants from getting in or out, providing seamless protection for your people and process and the assurance to do your best work.

As a global leader in PPE and wiping solutions for labs and cleanrooms, we offer an array of options that work together to meet your mask, respirator and other PPE needs.

TOP CONTAMINATION SOURCES:

Skin flakes, oils, perspiration and hair can all contribute to cleanroom contamination.⁶

Which Product Is Best for You?

These charts will help you determine the best cleanroom and lab masks for use in your environment.

Kimtech™ Cleanroom Masks

Category	Suggested Use	Performance		
		Best	Better	Good
M3 - Sterile	 Pharmaceutical/Biotech	●		
M3 - Non-Sterile	 Semiconductor/Disk Drive/Data Storage/Integrated Circuits	●		
M5 - Non-Sterile	 Biotech/Medical Device/Electronics/Telecommunications		●	
M6 - Non-Sterile	 Semiconductor/Disk Drive/Data Storage/Integrated Circuits		●	
M7 - Non-Sterile	 Semiconductor/Disk Drive/Data Storage/Integrated Circuits			●

Symbols Key

-  Sterile
-  Double Bagged with Case Liner
-  Recommended for ISO Class 3 or higher cleanroom
-  Recommended for ISO Class 5 or higher cleanroom
-  Recommended for ISO Class 6 or higher cleanroom
-  Recommended for ISO Class 7 or higher cleanroom

Wipers

When it comes to precision cleaning in a scientific environment, you need wiping products you can trust. Our innovative wiping solutions provide the assurance you need to do your best work while protecting critical environments and processes.

The Industry Standard

Over 60 years ago, Kimberly-Clark Professional created Kimwipes® Wipers, the first delicate-task wiper for lab environments. It remains No. 1 today. From the industry standard for labs and research facilities to sterile pre-saturated cleanroom wipers, the Kimtech™ Brand continues to deliver high-performance wiping solutions. These, combined with our head-to-toe PPE, deliver seamless protection when and where it counts.

Kimtech Science™ Kimwipes® Delicate Task Wipes

The industry standard for labs and research

When it comes to precision cleaning in a lab or research environment, you need wiping products you can trust. The Kimtech™ Brand's innovative wiping solutions provide the assurance you need to do your best work while protecting critical environments and processes.

The industry standard for labs and research. Introduced over 70 years ago, Kimtech Science™ Kimwipes® Wipers were the first delicate-task wiper for laboratories and since then have been the market leader for wiping surfaces, parts, instruments and cleaning lenses. Other products have tried to imitate, but have never matched the original. Don't put your delicate processes at risk.

▶ PRODUCT FEATURES

- Ideal for delicate task wiping and cleaning of instruments, lenses, surfaces, parts, and for absorbing liquids
- Gentle texture
- Low lint and low extractables
- Available in 2-ply and 3-ply for increased absorbency

One-at-a-time dispensing

Technology: Hydroknit® / **Material:** Cellulose and Polypropylene

¹⁰ All Kimberly-Clark Professional white L series towels can be aerobically composted in municipal or industrial facilities in the United States and Canada by ASTM D6868-11. Check with your waste hauler to ensure your application and their composting process are compatible.

¹¹ Not for use on compromised skin

¹² Pound for pound, based on one test lot

Eyewear

Kimberly-Clark Professional offers safety eyewear for different work environments and a variety of different tasks. Designed with the wearer's needs and style in mind, our eyewear portfolio offers a comprehensive range of eye protection options.

**DON'T LET
YOUR WORKERS
BECOME A STATISTIC**

More than **2,000** people
sustain a job-related
eye injury every
day.¹³

Protection for Different Environments and Tasks

Our eyewear offerings provide workers with choices — such as different colors, sizes and vision assistance — potentially tipping the scale between protection and injury. Why take a chance on anything else? Choose our trusted brands to enhance safety and productivity in your workplace.

Symbols Key

-  Meets the optical requirements of the ANSI Z87.1 standards
-  Meets the impact protector requirements of the ANSI Z87.1 standards
-  Meets the ANSI Z87.1 requirements for liquid splash/droplet protection
-  Meets the ANSI Z87.1 requirements for dust protection
-  Meets the ANSI Z87.1 requirements for fine dust protection
-  Certified to meet the impact, ignition/flammability, coverage, and optical requirements of the CSA Z94.3 standards
-  Lenses are made of a polycarbonate material that provides 99.9% UVA/UVB/UVC protection
-  Product complies with the Trade Agreements Act
-  Number denotes the base curve of the eye protection; a higher base curve provides more wraparound protection and peripheral vision, and can reduce the need for side shields
-  Look for this symbol to see which products are eligible for recycling

KIMTECH™

Choose Kimberly-Clark Professional Products for All Your Needs in Critical Environments

Kimberly-Clark Professional offers you convenience, reliability and technical expertise in a single source for apparel, masks, gloves, wipers and eyewear for critical environments.

Certified Quality Documentation:

For Certificates of Conformance, Certificates of Analysis and Certificates of Irradiation, visit www.kimtech.com/certificates or e-mail kimtech@kcc.com.

Try it. Risk-free. Replace your current PPE or wiping products with Kimberly-Clark Professional solutions for 60 days. If you don't see a 20% cost savings, we will reimburse you the difference between the cost of your product and our product up to \$1,000.**

Take the 60-day challenge! To learn more, contact your Kimberly-Clark Professional Sales Representative.

**Guarantee extended to consuming end-user accounts with the following restrictions: Replace your current rags or laundered towels with WypAll® X Brand Wipers; replace your current wiping system with Kimtech™ Wiping Solutions for 60 days and see a 20% savings on chemical costs (06411, 06471, 77320); replace your DuPont™ Tyvek® 400 with KleenGuard™ Brand families A20, A40 and A45; replace your competitive economy eye protection (uncoated lenses) with KleenGuard™ Maverick™, Nemesis™, Nemesis™ CSA, or Nemesis™ VL Eye Protection; replace your 5-mil gloves with KleenGuard™ G29 Chemical Gloves. The maximum amount that Kimberly-Clark Professional will pay out under this program is \$1,000 per customer facility. Void where prohibited, taxed or restricted by law. Not responsible for lost, late, misdirected, incomplete or undeliverable submissions. Kimberly-Clark Professional reserves the right to modify or cancel this program at any time. See individual brochures for specific details and eligible codes.

⚠️ WARNINGS: Improper use or failure to heed warnings may result in serious injury or death.

Do not use respirators for sandblasting or to protect against asbestos, lead-based paint, pesticides, oil aerosols³, vapors or gases. Do not wear respirators when conditions prevent a good facial seal. It is important to fit check the respirator each time it is worn.

Our Guarantee

Your total satisfaction means everything to us. If, for any reason, our products do not meet your expectations, Kimberly-Clark will reimburse you¹ for your initial purchase, via FREE product, for up to \$1,000. For more information on Kimberly-Clark Professional, visit us online at www.KCProfessional.com.

¹ Guarantee extended to consuming end-user accounts only.

Kimberly-Clark warrants that its products (1) comply with K-C's standard specifications as of the delivery date to K-C's authorized distributors/direct purchasers (2) comply with all K-C labeling representations; and (3) are manufactured in compliance with all applicable federal, state, and local laws in effect at the time and place of manufacture of the products. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. K-C is not liable for any kind of special, incidental, or consequential damages. K-C's liability for breach of contract, tort or other cause of action shall not exceed the product purchase price. Purchasers and users are deemed to have accepted the above warranty and limitation of liability, and cannot change the terms by verbal agreement or by any writing not signed by K-C. To the extent required by applicable law, K-C does not limit its liability for death/injury resulting from K-C's negligence.
