

The Navien Recess Box protects the outdoor water heater installation from exposure to adverse weather and environmental conditions such as wind, rain, and debris while concealing any water and gas piping underneath for a more aesthetically pleasing installation setup.

- Compatible with Non-Condensing NPN-E Outdoor Series only:
NPN-160/180/199E
- Recess Box Part Number: **30023550A**
- Functional for both residential and commercial applications with some lightweight assembly required.
- Available in glossy white as an ideal accessory to compliment Navien water heater installation.
- Lightweight construction made of durable steel.

FEATURES

- Allows the appliance to be completely recessed into a wall for a smooth seamless look that easily fits in between standard wall studs.
- Drain holes located at the front of the box for improved draining capabilities for flush-mounted installations.
- Wide front door flange design for easy flashing
- Includes lock ring for increased security
- Removable door allows easy access for servicing.
