

## Braided Vinyl Tubing

### PRODUCT

Braided Vinyl Tubing

### APPLICATION

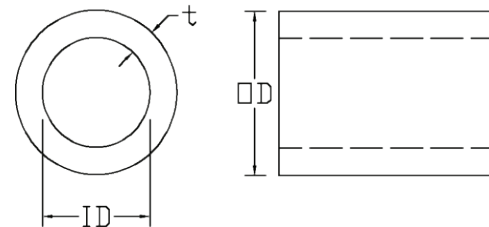

Air conditioning and refrigeration condensate drains, condensate pump discharge lines and humidifier overflows.

### ADVANTAGES

Select DiversiTech® braided tubing over standard clear vinyl tube because of its superior strength and its kink resistant design, while the lightweight and flexible tubing can withstand rough handling and multiple usage while maintaining dimensional stability. Made of high-quality material with smooth interior and exterior that prevents sediment accumulation, allows easy flow & flushing and is easy to shape, bend and install.

### GENERAL CHARACTERISTICS

- Five sizes from 1/4" to 5/8" Diameters
- Clear Vinyl Chloride (PVC)
- Reinforced polyester caliber 300-500
- Extra rigid and strong design resists crimping and kinking due to durometer value of 78-80 (shore A)
- Service Temperature 140° F (60° C)

ITEM #	Nominal Size (in)	Inner Diameter (in)	ID Tolerance (in)	ID Max (in)	ID Min (in)	Length (ft)	Roll Weight (lb)	Working Pressure (PSIG)
