

High Quality and Dependability

ITW Ramset powder loads and tools match tolerances to provide optimum power within recognized national velocity standards. Available in color-coded 10-load strips, and 100-load boxes.

Caution Always test-fasten with the lowest power level for your tool. If more power is necessary, use the next highest power level until proper level and fastening is achieved. Refer to operator's manual for more specific details. Observe all safety reminders. Tool operators must be trained and qualified as required by federal law. Failure to use properly can result in serious injury or death to users or bystanders.

Advantages Powder Guide

Power level is designated by the load level number marked on each box; also by the color of the box and each powder load. As the number increases, the power level increases.

POWDER LOAD IDENTIFICATION				
2	3	4	5	6
Brown	Green	Yellow	Red	Purple
Lower power	→			Higher power

SELECTION CHART

RAMSET LOADS FOR LOW VELOCITY TOOLS							COMPATIBLE TOOLS	
PART NUMBER	POWER LEVEL	COLOR	CALIBER/TYPE	PACKAGING	Master Carton Qty	COMPATIBLE TOOLS		
						RAMSET	OTHERS	
3RS25	3	Green	.25 Strip	all 10 shot strip 10 strips/box	10,000	R25	DX35
