† Amana vs. Lennox product comparison conducted in September 2016. Lennox information also based on published materials from [Lennox.com](http://www.lennox.com) (Publication 210740 and <http://www.lennox.com/residential>).

‡ Major investment means more than \$400 million.

\*\* For features not denoted in the specification sheets, a tear down was conducted by Goodman on the 14ACX4 Ton model in August 2016. Results are reflective of the tear down inspection.

**The difference is clear.**  
ASX16 VS 14ACX

**Designed, Engineered and Assembled in the U.S.A.**

## The impeccable reputation of an American original brand

### Indoor heating and cooling systems from a home-grown brand

Amana® brand heating and cooling systems are a part of the tried and true legacy of one of America's most recognized and respected brands. Originating eight decades ago in Amana, Iowa, the brand is synonymous with long-lasting, premium quality products — from home appliances to heating and air conditioning equipment.

Today, Amana brand heating and air conditioning is part of one of the leading manufacturers of energy efficient residential, commercial and industrial HVAC systems and refrigerants. The brand has access to global resources and support to ensure that the best technology, manufacturing processes, testing and product limited warranties\* are applied in all products.

### An American original brand continues to invest in the USA

While many other HVAC manufacturers have moved, or are planning to move production outside of the United States, Amana brand's parent company is investing over \$400M in a new state-of-the-art manufacturing facility located just outside of Houston Texas. From the ability to more quickly test and implement product innovations to the fast and efficient delivery of needed products, the entire facility is designed to better serve our customers.

Amana brand heating and cooling products are designed to offer a legacy of indoor comfort and energy-efficient performance. Based upon the product reviews, homeowners agree. Amana brand products average a 4.7 out of 5.0 rating in homeowner satisfaction. View all of the product reviews at [www.amana-hac.com/reviews](http://www.amana-hac.com/reviews).

*"My Amana ASX16 16 SEER A/C was installed a week ago and it's really working great. Our outside temperatures have been in the 90s all week and I've been very, very comfortable in the house. I don't know what the difference is, but before when I had the thermostat set at 76 or 78, I was pretty uncomfortable (I like cool temperatures), but with my new A/C, I've been keeping the thermostat at 80 and feeling very comfortable."*

Zaned, Colorado Springs, CO

*"We had to replace 2 units in our home that were 14 years old. What a difference. Going on 70 days with temps over 90 degrees. [T]hese units have been a blessing."*

Grayson, Cumming, GA

*"I bought my new A/C unit a couple weeks ago and there's no feeling like the air that this new unit puts out. It holds the temperature it's set on regardless of how hot it is outside."*

Danderton, Charlotte, NC

*"This a very quiet unit when it starts it cools very good. I would highly recommend it to my friends. Also it has a great warrant by registering online within the correct time period."*

Gregory, TN

*"Had my Amana ASX16 air conditioning installed end of July and its been running great ever since. Makes those hot summer days bearable!"*

Ryan, Edmonton, AB, Canada

## Innovation and Technology

Our engineers and technicians develop many high-performance components and products designed to enhance the performance and comfort of the entire Amana® brand product line. With access to global resources and support, Amana brand can ensure that the latest innovations and technology are applied in all our products.

### SmartCoil™

Innovations like the 5mm SmartCoil condenser coil greatly increased heat transfer capability in units using R-410A refrigerant. It was, and still is, our most advanced and efficient copper tube and aluminum fin combination.

### Heat Exchanger

The heart of Amana brand furnaces is the tubular stainless steel primary heat exchanger with wrinkle bend technology. The heat exchanger is designed for outstanding durability and heat transfer.

### Proprietary Variable Speed Inverter Technology

Central to our flagship air conditioners and heat pumps is our proprietary variable speed inverter technology compressors. These compressors are revered for their ability to deliver more constant indoor comfort and lower utility bills than single speed compressor models.

In fact, over 30 million units utilizing this technology have been installed worldwide. So you can rest assured that you are getting a proven design.

## Quality and Testing

We take great pride in all of our products, relying on strict quality driven processes to help ensure that each component and the final assembled product meets or exceeds our customer's expectations. The Amana brand product line is assembled in facilities that are ISO 9001 and 14001 certified, which is accepted worldwide as the independent standard for quality manufacturing, management processes and environment management practices.

Further, we test each Amana brand product, including an actual run test, before it leaves the assembly line. We also employ the rigors of Six Sigma principles to challenge ourselves constantly to improve both our product design and our manufacturing processes.

We do all this because anything less would not be worthy of your quality standards.

## We offer outstanding limited warranty protection\*

Every Amana® brand indoor comfort product is built to our highest standards. The high quality of our product limited warranties\* reflects the high standards of our manufacturing processes. All Amana brand products provide outstanding limited warranty\* protection.

### Our limited warranties\*

Here are some examples of the limited warranty\* protection coverage:

- **Lifetime Unit Replacement Limited Warranty\*** on selected gas furnace, air conditioner and heat pump models, good for as long as the purchaser owns his/her home.
  - If the compressor or heat exchanger fails in use at the original registered homeowner's residence, a new furnace or condenser will be provided at no charge.
- **Lifetime Compressor Limited Warranty\*** on selected packaged units, good for as long as the purchaser owns his/her home.
  - If the compressor fails while in use at the homeowner's residence, a new compressor will be provided at no charge.
- **Lifetime Heat Exchanger Limited Warranty\*** on selected gas furnace and packaged unit models, good for as long as the purchaser owns his/her home.
  - If the heat exchanger fails in use at the homeowner's residence, a new heat exchanger will be provided at no charge.
- **10-Year Parts Limited Warranty\***
  - Included on all residential heating and cooling products regardless of SEER or AFUE rating.

\* Complete warranty details available from your local dealer or at [www.Amana-hac.com](http://www.Amana-hac.com). To receive the Lifetime Unit Replacement Limited Warranty, Lifetime Heat Exchanger Limited Warranty, Lifetime Compressor Limited Warranty (in each case, good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

### EXTENDED SERVICE PLANS AVAILABLE

Beyond the standard warranty coverage available, dealers can also purchase a variety of extended service plans directly from their local Amana® brand distributor. Ask your dealer for full details.
