

# INSULATED SPEEDKNIT™

## INSULATED HAND PROTECTION

The brisk cold air can make even the simplest task more burdensome. Our SpeedKnit Insulated protects working hands in cold conditions with a seamless 15-gauge acrylic knit shell to help regulate your body temperature. The working side of the SpeedKnit Insulated features a bi-polymer coating that combines polyurethane (PU) gripping power with the flexibility of nitrile to prevent stiffness in cold conditions.

### INSULATED

15-gauge acrylic knit shell helps regulate your body temperature in cold conditions.

### GRIP

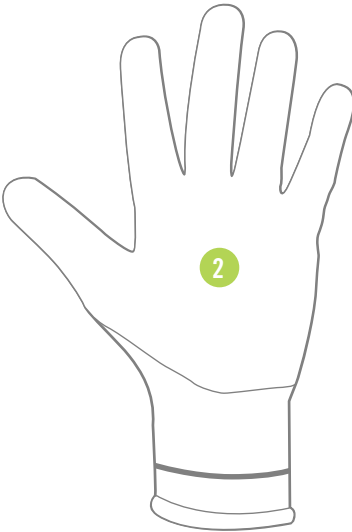

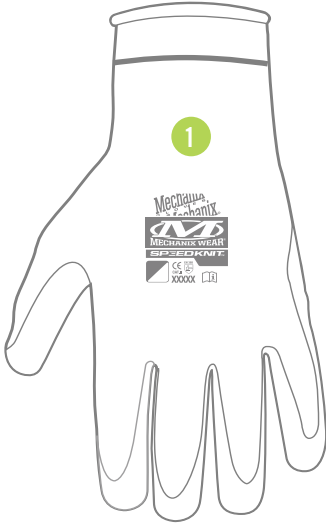

Bi-polymer palm coating combines polyurethane (PU) gripping power with the flexibility of nitrile.
