

# Make Your Bathrooms Safer with Jessup's Anti-Slip Bathmats, Tapes and Treads

Every year, thousands of people go to the ER due to injuries sustained from slips and falls in the bathroom. Some of these visits end in hospital stays or fatalities. More than one-third of these injuries occur while bathing or showering and are especially dangerous for children and the elderly.

With Jessup's Flex Track® 4100 anti-slip bath and shower mats and strips, you can reduce the number of these incidents and have peace of mind knowing that our products always stay put under foot. Flex Track 4100 anti-slip bath and shower mats feature a barefoot-friendly surface with an adhesive back that adheres securely to a variety of surfaces and does not allow water to seep underneath it.
