Proper care instructions:

Machine wash in hot water using mild detergent. Do NOT bleach, dry clean or iron. Machine dry on a normal setting.

Materials | 92% Nylon | 8% Spandex

CDC Wash and Care Instructions

Clothing, towels, linens and other items that go in the laundry

Wear disposable gloves when handling dirty laundry from an ill person and then discard after each use. If using reusable gloves, those gloves should be dedicated for cleaning and disinfection of surfaces for COVID-19 and should not be used for other household purposes. Clean hands immediately after gloves are removed. If no gloves are used when handling dirty laundry, be sure to wash hands afterwards. If possible, do not shake dirty laundry. This will minimize the possibility of dispersing virus through the air.

Launder items as appropriate in accordance with the manufacturer's instructions. If possible, launder items using the warmest appropriate water setting for the items and dry items completely. Dirty laundry from an ill person can be washed with other people's items.

Clean and disinfect clothes hampers according to guidance above for surfaces. If possible, consider placing a bag liner that is either disposable (*can be thrown away*) or can be laundered.

Warning

Do Not Bleach. This product makes no claims that it will cure or prevent Coronavirus, Influenza, or COVID-19. These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

***Note:** Manufacturer makes no warranties, either express or implied, that this face mask prevents infection or the transmission of viruses, bacteria or disease. This mask may be used when FDA approved masks are not available. It is not recommended using this mask in a surgical setting or where significant exposure to liquid bodily or other hazardous fluids may be expected.*
