

Follow these mounting instructions for proper vessel installation.

### Tools You May Need

### 1. Prepare Location

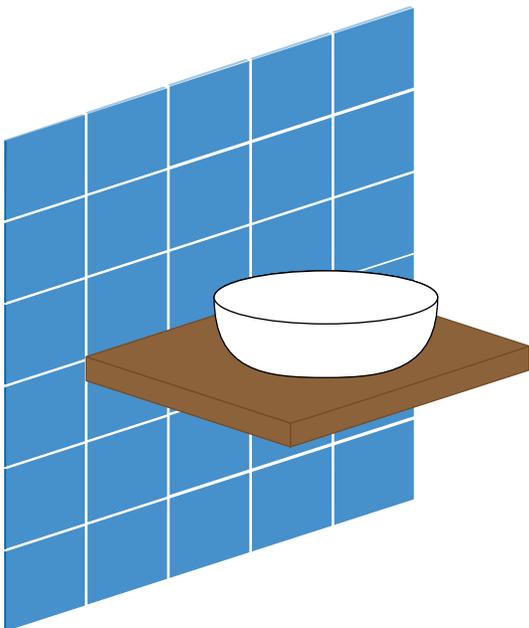

Install vanity or slab according to the manufacturer's guidelines. Place the sink on the countertop and determine its permanent location. Mark the drain hole and cut an opening.

## 2. Add Silicone To Bottom Of Sink

---

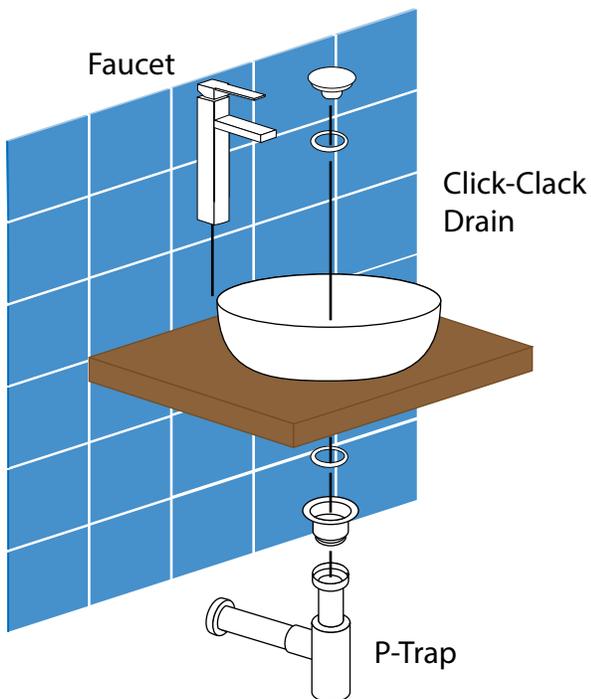

Place a bead of silicone on the underside of the sink.

## 3. Align Sink

---

Line up the drain hole with the countertop. Be mindful of the overflow hole position, if your sink has one and press firmly.

## 4. Sink Accessories

---

Complete your installation by adding the preferred plumbing accessories, such as the faucet, click clack drain, p-trap and angle valves to your sink.
