

## FURNACES

### DR80UT Two-Stage

We've thought of everthing to bring you efficient and dependable indoor comfort solutions.

**Increase your energy savings** and comfort level with the DR80UT gas furnace. The two-stage constant torque ECM Motor maintains efficiency across a range of operating speeds, using less electrical energy than a standard PSC motor.

**Dependability** is of the utmost importance when it comes to your family's comfort. Our DR80UT gas furnace comes standard with the direct spark ignition system (DSI), which is one of the most **dependable ignition systems** available today. This technology is the same proven design used on gas ovens and stoves.

**Quiet Operation** is what you get with the DR80UT gas furnace. The tight door seal helps eliminate whistling. We've also added rubber grommets on the motor mounts and a twist lock wire harness in the blower shelf.

**Easy installation and maintenance** features benefit consumers, too. This means savings on installation costs and faster, more cost-effective repairs during maintenance. The DR80UT gas furnace is also designed with the **industry-first 7-segment LED** display, a feature that makes service calls quick and easy.

#### Limited Warranty Information:<sup>2</sup>

Heat Exchanger - Fifteen (15) Years

Parts - Five (5) Years

**EFFICIENCY:**

**80% A.F.U.E.<sup>1</sup>**

**INPUT RATES:**

**50 to 150 kBTU**

<sup>1</sup> Annual Fuel Utilization Efficiency (A.F.U.E) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher A.F.U.E. ratings reflect higher efficiency.

<sup>2</sup> For complete details of the limited warranties, including applicable terms and conditions, contact your local Contractor or go to DURASTAR.com for a copy of the product warranty certificate.
