# CEILING FAN REMOTE CONTROLLER OPERATION AND INSTALLATION INSTRUCTIONS

(Please keep this instruction pamphlet.)

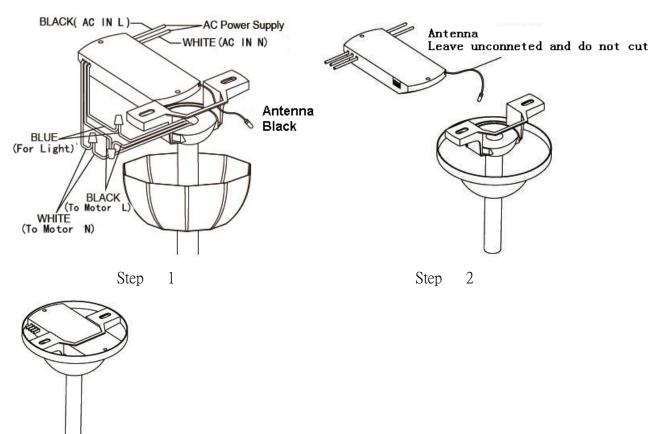

### **IMPORTANT POINTS TO REMEMBER:**

- 1. Read and save these instructions.
- 2. Please note that all fixed wiring appliances should be installed by a qualified electrician.
- 3. The supply of the remote control receiver should be connected through a main switch, i.e. existing wall switch.
- 4. Disconnect from power supply at wall switch before working on remote control receiver or ceiling fan.
- 5. Install receiver into the ceiling fan canopy of the fan to ensure proper protection.
- 6. This unit is to be used for the control of ceiling fan and in a AC110V/120V 60Hz power supply only. Trated 1.0A for fan, max load 190W for light kit.
- 7. This remote controller is only for indoor use and only compatible to this particular ceiling fan.
- 8. Do not pull on or cut leads shorter.
- 9. Do not drop or bump the unit.
- 10. PLEASE NOTE: The battery will weaken with age and should be replaced before leaking takes place as this will damage the transmitter. Dispose of used battery properly, keep the battery out of reach of children.
- 11. CAUTION: To reduce the risk of fire or injury, do not use this product in conjunction with any variable (rheostat) wall control.

# **INSTALLATION INSTRUCTIONS**

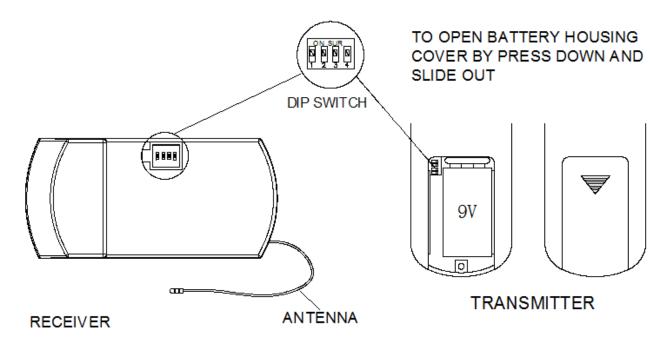

CAUTION: INCORRECT WIRE CONNECTION WOULD DAMAGE THIS RECEIVER.

1. Once the connection has been made, the receiver inserts into the drop rod hanging bracket. The canopy comes up to cover the receiver and bracket.

#### **CODE SWITCH**

- 1. CODE SWITCH: Codes are set by pushing dip switches up or down. It is imperative that the code used for both transmitter and receiver is exactly the same; otherwise remote controller will not work. Please note the code switch will enable you to operate a second remote controller independently. For example, if you have two ceiling fans with 2 remote control units, set 2 different codes for each set of transmitter/receivers. This means you can operate each ceiling fan independently.
- 2. Your remote control is ready for use after battery installation.

## **FUNCTIONS OF TRANSMITTER**

OFF: Turn off ceiling fan.

HI: Turn on ceiling fan at high speed.

MED: Turn on ceiling fan at medium speed.

LOW: Turn on ceiling fan at low speed.

LIGHT: ON/OFF: Press and release immediately to turn

On or off the light.

DIMMER: Press and hold on to dim or brighten

Lights to the desired level and release.
