## Shower, Tub & Tile Cleaner

Acidic cleaner that removes the toughest soap scum, body oils and hard water deposits from shower room surfaces.

### Features & Benefits

- Concentrated formula removes soap scum, hard water deposits, rusts, body oils, grease, and dirt
- Brightens stainless steel and ceramic tile
- Acidic formula saves more money than the ready-to-use
- Produces a pleasing, fresh fragrance without a heavy perfume smell
- Less scrubbing is needed for scale removal than other non-acid cleaners

### Applications

- Use as a multi-purpose restroom cleaner
- Can be used on floors

Use instructions

For General Use:

- Dispense from the appropriate Diversey® dispenser with properly-labeled spray bottle or bucket.
- Apply solution directly onto surfaces to be cleaned, scrubbing with a soft brush, pad or cloth.
- Do not allow foam to dry.
- Rinse surfaces thoroughly.

For J-Fill® Use:

- Insert cartridge into dispenser (see J-FILL® dispenser instructions for proper cartridge placement). Fill small bottle or bucket or use gun to apply a foam directly onto surfaces to be cleaned, scrubbing with a soft brush, pad or cloth. Do not allow foam to dry. Rinse surfaces thoroughly. NOTE: Some commercial strength cleaners are unsuitable for use on some surfaces. Test in an inconspicuous area prior to use.

For RTD® Use:

- Fill trigger spray bottle with product. Apply to surfaces to be cleaned.
- Wipe with clean cloth or towel to dry. Dilute with cold water.

- To avoid food contamination after cleaning, sanitize and rinse all food contact surfaces with potable water before reuse.

For Snap N' Dose™/MC Pro Use:

- Fill properly labeled spray bottle with 946ml/1 U.S. Qt. (32 fl. Oz.) of potable water.
- Using one hand to secure the package, use the second hand to snap open the top of the spout-tip. Do not apply excessive pressure to the package while opening. Keep spout-tip upward when snapping open so not to spill contents.
- Dose concentrate into the bottle by carefully inserting the open spout-tip into the top of the spray bottle, give the tray a light squeeze to ensure complete evacuation of product concentrate.
- Allow the tray to fully evacuate into the bottle for about 4 to 6 seconds.
- Firmly screw down the spray head to the bottle, give the bottle a light shake and you are now ready to clean.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at [www.diversey.com](http://www.diversey.com) or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up-to-date shipping information.
