Use Overview

Suma® Optifill™/M/C Dispensing System is an innovative manual warewash system which offers consistent, controlled dispensing, with no installation or service and zero chance of a system failure. Optifill is maintenance-free and delivers accurate dosing and dispensing without the need for equipment or a permanent water connection. Optifill eliminates the hassles and problems associated with traditional systems. Optifill is the only non wall-mounted system that allows customers to dispense just the right amount of chemicals time and time again. Consistently meeting customers cleaning needs in the most efficient and sustainable way.

- Place bottle on sink partition.
- Adjust slide on bottle to secure on sink partition and close drain.
- Align bottle so that flow of water from the faucet falls directly into inlet on top of bottle. (faucet drop height of 4–8" is required)
- Fill sink with temperature of 122° F (50° C) at a flow rate of 4–8 gallons/minute (15–30 liters/minute).
