

Nest Thermostat

Turn up your savings.

[Infosheet](#)

So many ways to save

- Just \$129.99, and designed to pay for itself in energy savings.
- Schedule your heating and cooling so it only works when it needs to.
- Savings Finder suggests more ways to save energy.¹
- The Nest Thermostat turns down the heating and cooling system when there's no one home.

Heating and cooling system care

- Monitors your heating and cooling system and alerts you if something isn't right.^{1,2,3}
- Makes maintenance easier by proactively sending reminders to change things like filters.^{1,2,3}
- Book an approved Pro right from the Google Home app and receive preferred pricing.

Control from anywhere

- See and adjust the temperature from anywhere using the Google Home app.^{1,2}
- The Google Home app guides you through setting up a heating and cooling schedule.^{1,2}
- Control with your voice using a Nest speaker or display.⁴
- All your data is encrypted for privacy. Use 2-Step verification to further improve your account security.

Easy to install and use

- DIY install usually in 30 minutes or less.⁵
- Easily manage your settings by swiping the touch bar on the right.

Dimensions & weight

Diameter: 3.3 in (84 mm)
Depth: 1.07 in (27.25 mm)
Weight: 4.9 oz (139 g)

Colors

- Charcoal
- Snow
- Sand
- Fog

Materials

All plastic components are made from 49% post-consumer recycled plastic

Connectivity

Wi-Fi: 802.11b/g/n 2.4 GHz, 802.11a/n 5 GHz
Bluetooth Low Energy

Display

2.4-inch QVGA IPS liquid crystal display (240 x 320 pixels) with digital brightness enhancement film and mirrored glass lens

Sensors

Motion, Temperature, Humidity, Capacitive touch, Ambient light

Power

Primary power: From HVAC system wires
Battery backup: 2 AAA 1.5V alkaline batteries

Compatibility

Compatible with 85% of households:

- 24V heating and cooling systems, including furnaces, air conditioners, boilers, and heat pumps with either forced air or radiant delivery.
- Conventional systems that have one stage of heating and cooling and a second stage of either heating or cooling.
- Heat pumps that have one stage of heating and cooling and either aux or emergency heat.
- HVAC fans.
- The Nest Thermostat is designed to work if your home doesn't have a common ("C") wire. In some cases, particularly if you have a heating- or cooling-only system or use a zone controller, a C wire or other power-supply accessory may be necessary. See g.co/nest/cwire for details.⁵

goo.gle/newsletter-infosheet

¹ Remote control and mobile notifications require working Internet and Wi-Fi.

² Requires working Internet, Wi-Fi and compatible smart devices.

³ We provide alerts to notify you of a potential issue with your HVAC system. Our goal is to provide helpful information, but we make no endorsement, representation, or warranty of any kind about the health of your HVAC system. Alerts aren't intended to replace a diagnosis by a qualified HVAC professional.

⁴ Voice control with Google Assistant requires a compatible smart device.

⁵ The Nest Thermostat is designed to work in most homes without a common (C) wire. Installing a new C wire may be required with heat-only or other systems. See g.co/nest/cwire for details.
