

Confined Space Ventilator

X-8

1200 CFM, 2.5 AMP

Already an industry favourite, the variable speed X-8 confined space ventilator provides complete control over **1200 CFM**. The **sealed motor** on this **8 inch** blower draws **2.5 amps** and will efficiently move air to where it is needed. The 2 ducting hose options, both sold separately, are the 8DH25 (25 feet of ducting in a transport bag) and the 8DHC25 (25 feet of ducting in an ABS transport case that securely fastens to either end of the blower).
