

BED BUG CONTROL the Red Hot Opportunity

Building service contractors, property management agencies, as well as independent hotel/motel owners are pairing XPOWER Heat Resistant Axial Fans with heating equipment designed specifically for bed bug remediation for optimum result.

X-35AR

HIGH TEMPERATURE AIR MOVERS

The XPOWER X-35AR axial fan is designed for high temperature work environs up to 180 degrees Fahrenheit. Use this unit in conjunction with high temperature heaters to circulate hot air for thorough pest control, water damage restoration, and more. This high performance fan features a high torque, sealed motor, variable speed control, and a low 1.6 Amp draw for a focused, powerful air flow up to 60 ft. The feature-laden X-35AR Axial Fan is both lightweight and stackable with an included 360-degree rotational rack/stand. A built in daisy chain power outlet can help speed up the drying process when time is crucial, especially on challenging pest control, restoration and remediation jobs.
