

700 SERIES

XPOWER LOW PROFILE

COMPACT DESIGN, SUPERIOR STACKABILITY

Ultra Compact + Lightweight Drying Solution

XPOWER's Low Profile Air Movers feature powerful ventilation in a compact size that does not compromise on power. Able to store vertically or horizontally, these fans take up less than a 20" x 10" footprint when positioned on its side. A deep nested stackable design allows for stable stacking up to 6 units high to load in truck or on handcart.

Extended Airflow Pattern

Get the job done with less equipment. XPOWER Low Profile Air Movers generate a high volume of extended air that has the velocity to maximize your drying area. A large air intake diameter ensures efficient performance. Vents on underside of unit provide strategic airflow to dry the surface below fan.

Customized Features

Available in 3 models, choose from a selection of features including GFCI outlets, ABS housing, and multiple speeds to match your price-point and feature requirements.

- Slim Profile stacks 6 high on hand cart
- Ergonomic, Easy Carry Molded Handle
- Precision "No Leak" Housing
- Quiet Performance
- Wrap Around Cord Design
- Non-Slip Rubber Feet
