

M-25 / M-27

AXIAL AIR MOVER

WITH BUILT-IN OZONE GENERATOR

XPOWER's M-25/27 Axial Air Mover features the power of high volume extended focused air coverage and a brushless DC motor for ultimate energy efficiency and a powerful commercial ozone generator for penetrating ozone coverage like no other unit on the market. The M-25 / M-27 is perfect for sanitizing and deodorizing medium to large areas such as hotel suites, offices, homes, basements, and more. XPOWER's air movement technology leads the industry in features. Our in-house designed and manufactured brushless DC motors develops large amounts of torque to propel the air speed and volume you need for whole room circulation and ozone penetration. Featuring an Always-On setting, a 3-hour Set-N-Forget timer, a separate on/off toggle switch for the ozone generator, and an ozone indicator light for safety. With the ability to turn the ozone generator off independently, you can utilize this unit as a standard air mover for cooling, ventilating, and drying purposes. Dual purpose air mover/ozone generator, this is truly unique to the market.

SPECIFICATIONS

- Ozone generator with built-in ozone indicator light for safety
- Powerful torque packed Brushless DC motor for extended focused airflow
- 3 hour timer, Always-On Setting, and independent power switch for ozone generator
- Precise variable speed and 360* rotational stand
- 6 ft. power cord with wrap around cord management design
- Safely eliminate smoke, food, mildew and garbage odors and reduce air born particles such as dust and mold spores
- Supports in Sanitizing: mold, bacteria, viruses, and VOCs
- Medical studies have shown Ozone to break down and destroy viruses
- Great for hotel suites, large meeting rooms, restaurants, apartments, fire and flood restoration and more
- We recommend you use this unit in an unoccupied room, it can be harmful and dangerous if used while occupied with people and pets

Model No	M-25	M-27
Voltz/Hertz	115V/60z	115V/60z
Motor	115 W	145 W
Power	1.2 Amps	1.5 Amps
Rated Airflow	1450 CFM	1450 CFM
Speeds	Variable Speed	Variable Speed
Ozone Generator	5,000 mg/hr	10,000 mg/hr
Cord Length	6 ft.	6 ft.
Operating Position	360° Rotation	360° Rotation
3 Hour Timer	Yes	Yes
Stackable	Yes	Yes
Unit Weight	12.6 Lbs.	12.6 Lbs.
Unit Dimensions (LxWxH)	15.4x8.8x17.2 in.	15.4x8.8x17.2 in.
Housing	ABS	ABS
Thermal Protection	Yes	Yes

PRODUCT FEATURES

- Industrial Ozone Generator
 - Ozone Indicator Light
 - On/Off Switch & 3 Hr Timer

- Precise variable speed control

- Brushless DC Motor for Maximum Energy Efficiency
- High Torque Motor + Deep Pitch Fan Blade for Maximum Extended Airflow
- Wrap Around Cord Design
- Fully Installed Rack / Stand Allowing 360° Angle Rotation
