A TASTEFUL ADDITION TO ANY HOME

FloPlus[®] whole house, high-flow chlorine reduction systems

FloPlus[®] American Plumber[®] introduces the WFP-BB series of high-flow carbon block systems. Utilizing our patented Fibredyne[®] carbon technology, these systems offer extremely low pressure drop and maintain an efficiency for the best chlorine taste & odor reduction.

features

- ★ Reduces particles as small as 0.5-micron in size by mechanical means
- ★ Maximum chlorine taste & odor reduction; high dirt-holding capacity
- ★ Radial flow filtration for long cartridge life
- ★ New drain feature on housing

benefits

- ★ Reduces cysts such as *Cryptosporidium* and *Giardia* by mechanical means
- ★ Low pressure drop and high flow
- ★ Long cartridge life for reduced maintenance
- ★ Drain simplifies cartridge change-outs

applications

- ★ Ideal for low water pressure situations
- ★ Whole house cyst and chlorine reduction
- ★ Well and city water installations
- ★ Applications requiring safe, clean water

WARNING: Do not use with water that is microbiologically unsafe, or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts.

CAUTION: Filter must be protected against freezing, which can cause cracking of the filter and water leakage.

NOTE: The contaminants or substances removed or reduced by this water treatment device are not necessarily in your water.

NOTE: Performance capacity depends on system design, flow rate and certain other application conditions. Certain states require system registration or certification for health-related reduction claims.

NOTE: A drinking water cartridge may contain carbon fines (very fine black powder). After installation and before using the water, follow the instructions for flushing the cartridge to remove fines.

NOTE: It is recommended that you run the tap for 20 seconds prior to using the water for drinking or cooking purposes.
