

SC1500 How To

Prepare for Use

<p>1</p>	 <p>This is how the machine should look when you enter the room.</p>	<p>2</p>	 <p>Disconnect battery and store onboard charger cord.</p>	<p>3</p>	 <p>Check the EcoFlex container.</p>
<p>4</p>	 <p>Check recovery tank, ball float and catch cage.</p>	<p>5</p>	 <p>Inspect and Install squeegee and hose. Install pad or brush for disc machine.</p>	<p>6</p>	 <p>Fill machine with water using front or rear fill port (<i>water should not exceed 130°F</i>).</p>

Machine Operation

<p>1</p>	 <p>Familiarize yourself with the control panel. Refer to the owner's manual.</p>	<p>2</p>	 <p>Burst of power delivers more water, detergent and pressure to clean stubborn areas.</p>	<p>3</p>	 <p>For double scrubbing, swing the squeegee to the right then flip down the squeegee kickstand to hold the back blade off the floor. Flip the kickstand up when done then vacuum solution from the floor.</p>
