

R-438A

- Air Conditioning Split Systems
- Heat Pump
- Geothermal Heat Pumps
- Cold Stores
- Supermarket Pak Systems
- Dairy Chillers
- Reach-In Storage
- Bakery Applications
- Refrigerated Transport
- Self-Contained Display Cabinets
- Walk-In Coolers

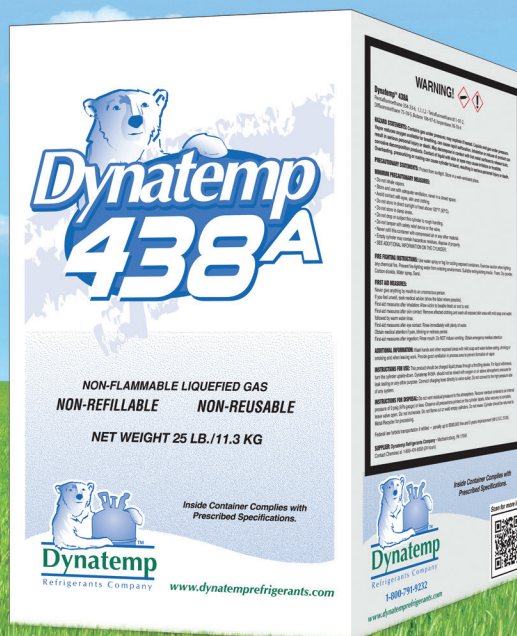

R-22 Replacement

Replaces R-22 in Multiple Applications

Save Time & Save Money. Quick & Easy Conversion.

- Unique non-ozone depleting, long-term replacement for R-22 refrigerant
- Usable in equipment with compressors designed for R-22
- Replaces R-22 without equipment modification or changing out line sets
- Compatible with Mineral, AB or POE oils
- Very similar operating pressure to R-22 with minimal capacity loss
- Comparable to R-22 performance with lower discharge temperatures
- Non-flammable; Rated A1 by ASHRAE
- After retrofit, equipment can be topped-off with additional R-438A, if required
- EPA SNAP Approved
