Install the Fixture

IA

- 1 Temporarily install the mounting plate to the junction box.
- 2 Ensure the mounting plate is level and mark the location of the keyhole slots then remove the mounting plate.
- 3 Install drywall anchors at the marked locations and reinstall the mounting plate with the provided anchor screws.
- 4 Connect the fixture to a suitable ground in accordance to local electrical codes.
- 5 Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
- 6 Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
- 7 Neatly place all the wires into the junction box, place the fixture base onto the mounting plate, and secure it in place with cap nuts.
- 8 Slide the shade over the socket, then used the socket ring and tool to secure the shade to the fixture base.
- 9 Screw the lamp into the socket. Refer to the label on the socket for Max Wattage Information.
