

METAL POSTS

T-POST

STUDED FOR DURABLE AND QUALITY FENCING

Studded and constructed with hot rolled steel, our T-posts are rugged and easy to install in tough terrains. They provide increased durability, strength and size. Furthermore, the T-post's heavy-duty anchor plate offers additional stabilization to ensure fencing remains in its intended position.

AVAILABLE UNITS

- Available in 4', 5', and 6' lengths
- Painted or Unpainted
- With or without Anchor Plate

ADVANTAGES

- Supports fences up to 6' high
- Angled stud design safely secures fencing to the post
- Oven-baked enamel for superior resistance to rust above and below the ground
- 5 installation clips
- Suitable for agricultural, lawn, garden, construction, and other applications
- Minimum 1.25 lbs per foot

U-POSTS

FOR LIGHT-DUTY FENCING

The U-post is an excellent selection for professional, lightweight fencing applications up to 36" H. It's engineered with 14-gauge galvanized steel and a U channel. As a result, the U-post is highly durable. Furthermore, its green powder coating protects the steel from harsh weather, increasing its lifespan.

ADVANTAGES

- 4' tall
- Notches for securing mesh fabric are placed every 6"
- No digging is required for installation
- Supports fencing up to 36" H
- Anchor plate adds support in the ground
