

# ROOF MANIFOLD

Figure 1401

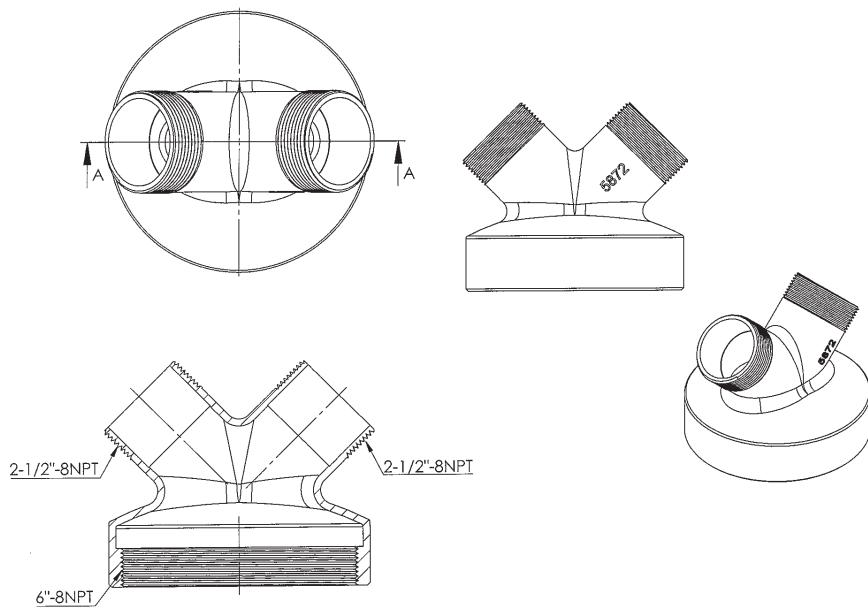

**NFP140112**

## FEATURES & BENEFITS

- Size: 6" x 2-1/2" x 2-1/2"
- Straight pattern
- Can be used as an inlet or outlet
- Body: Brass
- Finish: Rough brass
- Can be used with NFP120101 angle hose valve

## INSTALLATION

Ensure identification sign has been installed on the nipple prior to installation. Coat male threads of nipple with pipe thread sealant. Tighten one turn past hand tight. Make sure FDC is aligned according to requirements. CAUTION: Do not over tighten. Over-tightening can cause cracks and possible valve failure.
