Make drilling holes for cabinet pulls *easy!*

Part #: TKTEMPLATE

Our new installation template is your all-in-one tool for marking hole locations for cabinet pulls. Use the rulers on the edges of the template to measure your doors and drawer fronts.

The flexible and transparent tool also includes predrilled holes for our most common pull sizes. Simply align the tool with the center of your drawer or your desired location on doors, mark the hole locations from the tool, and drill the holes.

Add part number TKTEMPLATE to your next order!
