Country Of Origin: United States

RoHS Compliant: Yes

5603-2AW

15 Amp Decora Antimicrobial Treated 3-Way Switch, Self-Grounding, White

15 Amp 120/277 Volt 3-Way Antimicrobial Treated Decora Switch - White

- PROTECT

 Helps create a cleaner home environment by helping to keep switch and wallplate surfaces cleaner
- PREVENT Highly effective in protecting the surface of the device from the growth of mold, mildew, fungi and odor-causing bacteria in between normal cleanings
- CONVENIENT Replaces any standard 3-way switch; controls light(s) from two locations
- COMPATIBLE Use both antimicrobial treated switch and wallplate for complete coverage

Technical Information

Product Features
Amperage: 15 A
Color: White

Device Type : Rocker Switch Feature : Antimicrobial Grade : Residential

Grounding: Self-Grounding **HP Rating**: 1/2HP-120V 2HP-240V-

277V **Pole**: 3

Voltage: 120/277 VAC

Material Specifications

Body Material: Thermoplastic Rocker: Thermoplastic with Anitmicrobial additive Strap Material: Steel

Terminal Accom.: Side and Back wiring accept up to #12 AWG copper or copper-clad wire, Quickwire push-in terminals accept #14 AWG solid copper

wire only

Termination: Back wire, Side wire or

Quickwire

Torque Range: 14-18 inch pounds

Standards & Certifications

JIS Z 2801:2000 : Test for Antimicrobial

Activity and Efficacy

Standards and Certifications: UL/CSA

Warranty

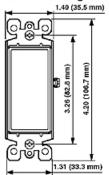

Warranty: 2-Year Limited

Features and Benefits

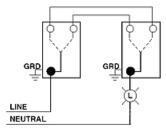

- Helps create a cleaner home environment by helping to keep switch and wallplate surfaces cleaner
- Antimicrobial properties are highly effective in protecting the surface of the device from the growth of mold, mildew, fungi and odor-causing bacteria in between normal cleanings
- Inhibits discoloration, staining, deterioration and corrosion of the device surface caused by mold, mildew, fungi and odor-causing bacteria
- Material used in Leviton residential antimicrobial devices has been tested to the international standard ISO 22196:2011
- Use both antimicrobial treated switch and wallplate for complete coverage

- Ideal for all rooms throughout the home (bathrooms, hallways, entryways, and kitchens)
- Same look and feel as traditional switches and wallplates
- For single pole and 3-way applications; white color only
- Replaces any standard single-pole/3-way switch
- Features Quickwire push-in, back and side wiring for easy installation
- Quickwire push-in terminals accept #14 AWG solid copper wire only
- Back and side wire terminal screws accept up to #12 AWG copper or copper clad wire
- Full-rated current capacity with tungsten, fluorescent or resistive loads. Motor load capacity is 80% of switch rating
- Coordinating Decora Antimicrobial Treated Wallplates are available in 1-gang, 2gang and 3-gang configurations, white color only
- Complements every décor
- Made in USA
- Limited 2-year warranty
- CAUTION: To clean use a damp cloth with mild soap. DO NOT use disinfecting products, including foggers, sprays, or other types of atomized cleaning agents
- California residents see Prop 65 WARNINGS
