Nozzles & Hoses

Spray Foam Nozzles

Conical (white) nozzles produce a focused spray pattern for more precise application. These are provided in most spray foam kits.

- 25 count pack is available (#4004529930)

Fan (yellow) nozzles produce a wider spray pattern for more coverage. These are also provided in most spray foam kits.

- 25 count pack is available (#4004529940)

Injection (black) nozzles are used exclusively with Slow Rise formulas.

Hoses

Additional foam kit hoses and gun applicators are available in a variety of lengths and come with a standard Accessory Pack.

- 15' hose length
- 30' hose length
- 60' hose length (Refillable Systems only)

Hoses and gun applicators designed for the CPDS system are also available:

- 30' hose length
- 100' hose length
