

DUCT HARDWARE & NEXUS FLANGE

KWIKI™ Sets & Parts Up to 10" x 10" Damper

Damper Regulators - Residential

DynAir's KWIKI line of residential regulators is designed to allow easy installation onto any factory-made residential quality damper blade. The spring in the spring-loaded bearing will never bind or interfere with the blade. The spring loaded bearing and threaded end bearing will both

perforate the metal with ease every time. The special KWIKI handle can also be used on both ends by simply flipping it from one side to the other. Both ends are available with steel back-up washers and gaskets to resist leakage.

KWIKI Sets – Up to 10" by 10" Damper
